PEDLEY IS PRESIDENT

(Daily Record)

The election of Graham M. Pedley, editor and publisher of the Carlisle Mercury, to the presidency of the West Kentucky Press Association was made by unanimous approval of all the members of the Fourth Estate in session here today.

About three years ago Mr. Pedley purchased the Carlisle County Herald and through his aggressive and progressive conduct of that paper he has made it one of the outstanding papers in the state of Kentucky. The Herald, and its editor have not only been honored by the West Kentucky Press but have received recognition from the Kentucky Press Association.

Pedley brought to the Lyon County Herald years of experience gathered in the hard school of metropolitan journalism and a natural interest in the development of country journalism. At no time since he took charge of the paper has he is publishing a news paper but never does he hesitate to step to the front and champion any cause that he believes to be for the best interests of the county and its people.

In politics and in projects for the good of his county and town Pedley's editorials have been appreciated at no time more than at present when it probably will be completed within the next ten days to two weeks. When completed this will be one of the best athletic fields to be found in any school in Central Kentucky. The work was done by WPA labor.

M. C. Shearer, former popular coach of the local high school, won a second scholarship of $150 at the Normal College of Education, training for an average of 91% in the three trimester. Not many scholarships are awarded but Shearer won second place for the scholarship, being exceeded in only a point by first place. Mr. Shearer will return to Carlisle Thursday and spend the week end with Mrs. Shearer.

As a result of games during the week end, Carlisle, Shelbyville and Lancaster remained leaders in the Central Kentucky Conference with three victories and no defeats for each team. Eight of the other twenty teams in the Conference are undefeated, but have won only one or two games. A new loop division will be crowned this year as Somerset, last year's winner under the Dickinson system, lost its second game in two starts.

Robert Blount, of Moorefield, was recently appointed secretary and treasurer of the Central Kentucky Fox-hunters Association at the business session of the association Monday. H. M. Haiden, of Mt. Sterling, was elected president, and L. E. Richardson, of Olympia, vice president. Roy Blount, brother Blount and Robert Blount, all of Mt. Sterling, were among the directors elected. The five-day session of the annual meeting opened at Oil Springs Monday.

Foods to increase weight: pork, butter, cheese, cream, dates, fried eggs, nuts, sugar and whole milk. Foods to decrease weight: soups made without fat, greens, fresh fruits, except bananas, and skim med milk or buttermilk.

The percentage of fat in a cow's milk is controlled by inheritance and not by feed. She may be so fed as to give more milk, and therefore a larger amount of fat, but the ratio of fat to milk cannot be raised by rich feeds.

Damp and poorly ventilated houses, drafts and overcrowding cause colds among poultry in the fall. Clean, warm and sunny quarters are necessary for health and egg production. Watch the birds carefully for appearance of diseases in cold, damp weather.

Children enjoy eggs scrambled, hard cooked and served with white sauce, or made into omelets. These are welcome variations from the common methods of poaching, soft-cooking and coddling. Long use of one method may cause the child to rebel.

In some instances two-thirds of the original weight of tobacco is lost by the evaporation of water during the first 10 days of curing. This is said to mean the loss of as much as 800 gallons of water per acre when the curing process is completed.

Lime commonly applied to land, limestone is considered the proper fineness if practically all of it will go through a 10-mesh sieve. About 50 per cent should go through a 100-mesh screen.

If you brush over the lower crust of your fruit pies with white of egg before putting in the fruit filler the bottom crust will not become soggy.

PIONEER

Hog Starter and Finish

Simple as pie!—Add three together—First, real performance in egg production; second, lowest feed cost per dozen eggs. The answer: Most Eggs per feed dollar. Your neighbor knows all these things are true of Red Comb.

IN A LONELY GARDEN

(Martha Banning Thomas)

Now summer's gone! And all the winter through

We'll think of yellow roses and the dew

On clover—and the floating para chutes

Out on the wind—and feverish flutes

Of peep'frogs lifted to the dark'ning air—

But summer's gone! And frighten ened asters stare

From frosty grass—and moons are few

And bright.

Gardens stand enslaved until the night.

Drugged by the cold. Today there is only fell

The last and topmost Canterbury bell.

It stands no sound, yet left a plaintive tune,

Chiming among our dreams—There's no more June!
