**MINERAL COLLOIDS**  
 A FERTILIZER FOR GENERAL USE. IT SURPASSES ANY OTHER FERTILIZER FOR GROWING CROPS AND BUILDING UP SOILS.  
**Special Price \$24.00 Per Ton**

**TOBACCO GROWN ON JOE PERRAUT FARM, MASON COUNTY, KENTUCKY, 1936**  
 Why it gives the best results is because  
 1. It contains Phosphoric Acid not less than 22 per cent and 18 other rare minerals that are similar to natural minerals in the soil.  
 2. It sweetens the soil; 3. Restores depleted soil; 4. Holds Moisture; 5. Holds other plant food in the soil; 6. Stimulates, feeds and increases soil bacteria; 7. Improves the quality; 8. It is inexpensive; 9. Matures the crops sooner; 10. Available to any crops.

**This is the Answer to Your Fertilizer Problems.**  
 It pays to use Mineral Colloids on everything you raise, whether it's Tobacco, Corn, Garden or Legume crops. The following statements are from farmers that used Mineral Colloids on their crops last spring in Mason and Lewis counties:  
 W. L. Highfield, of Lewis county, had the record crop average receiving \$68.85 cwt for his tobacco. The average being the highest of the season on the Mayville market.  
 Friday morning, December 19, 1936, the average Friday was the highest of the season and receipts were the heaviest in the history of the market, except during the war year.  
 Mr. Highfield used Mineral Colloids on his tobacco.  
 Crop tobacco averaged \$68.85 cwt with mineral colloids. Crop tobacco averaged \$43.00 cwt with other tobacco fertilizer. Mineral Colloids also worked good on truck garden.  
 Signed—W. L. HIGHFIELD, Lewis county.  
 Used Mineral Colloids on tomatoes and had a larger yield than ever before.  
 Signed—G. L. TOLLE Jr., Mayville, Ky., R. R.  
 Used Mineral Colloids on tobacco this year. Crop stood the drought, holds moisture and is available to plant.  
 Signed—W. J. COLLINS, Washington, Ky.
