State Budget Is Balanced

Avoid Calf Ewe In Building Up Flock

Richard C. Miller, Kentucky College of Agriculture, says that many of the ewes that are being raised in some states are of a type that have been called "calf ewes" because they are producing a lamb every year as a rule. This is a mistake, says Miller, because the ewe that produces a lamb every year is a "calf ewe" and is not a "calf ewe" in the sense that the word is used in the United States. The "calf ewe" is a ewe that produces a lamb every year, and is not a "calf ewe" in the sense that the word is used in the United States.

THE GARDEN

By John G. Gardner, Kentucky College of Agriculture. A full garden, particularly one that is in a "calf ewe" state, is a garden that is in a "calf ewe" state. The "calf ewe" is a ewe that produces a lamb every year, and is not a "calf ewe" in the sense that the word is used in the United States.

Former Janitor And Clerk Is Senate Majority Leader

He was a janitor in a school in his early days, and a clerk in a law office later on. Now he is the majority leader of the Senate. This is a remarkable achievement, and it shows that a man can rise from a lowly position to a high one if he has the ability and the determination to do so.

Urges Farmers To Save Clover Seed

The suggestion is that farmers should save their own clover seed. This is a good idea, because it will save them money and it will help to improve the quality of their seed. Farmers should be encouraged to do this, and they should be given the necessary information to do so.

OUR ANNUAL "ACCIDENT TALKS"

Traffic deaths in this country during the first five months of 1937 increased to 10,000. This is a terrible record, and it shows that we must do something to reduce the number of accidents. We must have "accident talks" to educate the public about the dangers of driving and to show them how to avoid accidents.
