## Made for Quality Tobacco

From plant bred to warehouse, you do everything possible to insure tobacco quality. You want light colored, fine textured leaf, so your crop will command the price that prime quality brings. And when you have tobacco in grow, farmers know that Armour's Tobacco Fertilizers help to produce that kind of crop. They know, too, that the returns from premium tobacco make the right fertilizer a good investment.

The records of results secured with Armour's Tobacco Fertilizers, year in and year out, prove they are right. They furnish a complete, balanced ration of the plant food tobacco needs. They stay with the crop, feeding it throughout the growing season and help bring early maturity and maximum leaf growth and top quality.

Use Armour's Burley Tobacco Grower this year and join the thousands of successful farmers who say:

"USE ARMOUR'S... Make Your Next Crop Better"
