Time Talks in Dollars

Yes, time is money. The time it takes you to earn money is valuable. Your time and your knowledge combine to form your greatest asset.

The result of your earning time is not wasted when the shopping for your home and family is done from the ads in this newspaper.

When your dollar comes into a cash drawer of one of our advertisers, a bigger dollar's worth is given to you in exchange. Relatively that makes your pay envelope fatter. Buying the same quality for less money never hurts anybody's feelings.

LIFE IS TOO SHORT

What's the use to worry
You've not got long to stay—
So you poor dong Life's way!
You do no good to worry
It things are going wrong,
You may as well be merry—
Meet reverse with smile and song

There's none of us that's perfect,
There's few of us that stay
Unbent our straight and narrow way.
So when you start to hammer
Some poor fool who's gone astray,
Thrill do no harm to pause and think
Some day
You may lose your grip some
What's the use to kick one
When just about to fall?
If you do not care to help him,
Don't mention him at all.
You'll find if you take notice,
That what I say is true:
While there may be faults in
There's a flaw or two in you.
