GLOOMY DAYS AHEAD!

MAKE YOUR HOME CHEERFUL WITH PLEASING LIGHT!

Scientific Better Sight Lamps enable you to Light Condition every room at Low Cost

Remember, you'll never have to put on a pair of real eyes. There never was a set of glass eyes that could read a book or see a thrilling scene... or handle at the sight of beloved faces.

So cherish your eyes. Treat them kindly. When you read or study or do other close work, give your eyes proper light... neither too much nor too little... neither glare nor shadows.

Use scientifically designed Better Sight Lamps in every room and you'll be much more efficient.

See our new 1938 Better Sight Lamps in both floor and table models. They are moderately priced and purchase terms are easy.

Why I Should Go To Church

There is a great deal of talk about the value of church service. Some people say that it is a waste of time and money. Others say that it is a necessary part of a Christian's life. The truth is that church service is a necessary part of a Christian's life. It is a place where we can find comfort and strength in our times of need. It is a place where we can find fellowship with our fellow Christians. It is a place where we can find a sense of purpose and direction in our lives. NEEDED WILD LIFE

ON THE FARM

Wild life is needed on the farm for many reasons. It is a necessary part of a healthy and productive farm. It is a source of food and clothing for the farmer and his family. It is a source of pleasure and recreation for the farmer and his family. Wild life is needed on the farm for many reasons. It is a necessary part of a healthy and productive farm.
