**To Make a Long Tail Short**

A friend of mine wanted a Tail Short for his dog. He was told that the only way to get a dog's tail short was to cut it off. This is a cruel and unnecessary procedure. There are many ways to make a dog's tail short without cutting it off. One way is to use a special cream that causes the hair to fall out. Another way is to use a special cream that causes the hair to grow back shorter. These are humane and effective methods.
