**The Aid For Nurses**

One of the most commendable measures sponsored by Governor Chandler is the fund passed by the legislature to aid the financial straits of the nursing profession.

Twenty-one years ago, on April 6, 1917, the United States declared war on Germany and the Central Powers. It was the will of the American people that the United States should be a part of the world for democracy, to join the ranks of the nations.

Today we know we cannot win this war unless we have the cooperation of our American people. We know that we cannot win this war unless we have the cooperation of our American people.

Indeed, the huge expenditures of money and resources which have been expended by the government for the purpose of this war are not only a financial burden on the people, but they are also a moral burden.

At this time it is worth noting that the Senate is now in session and the House is also in session. It is hoped that the Senate will pass the bill for the aid of nurses.

Under the impulse of Mr. C. H. Lusk, the United States Agricultural Department of the Government has been organized to aid the farmers of the United States.

Two years ago the class members of the church in this town were given a test in which they were given a list of names of the members of the church and they were asked to identify them.

Now that the bounds of Spring are tapping the back, let us keep our feet on the ground and our hearts in the service which will discharge the duties of the church.

Now it is the time to take steps to annihilate the weeds of the past. It is the time to take steps to annihilate the weeds of the past. It is the time to take steps to annihilate the weeds of the past.

Now, of late, it is the time to take steps to annihilate the weeds of the past. It is the time to take steps to annihilate the weeds of the past. It is the time to take steps to annihilate the weeds of the past.

A series of "winkles" extending from the north to the south, through a number of miles, has been discovered in the mountains of the State of Kentucky.

"God gives men wisdom as they desire it," said the Apostle Paul. It is the duty of every man to seek wisdom as he desires it.

**But It's True**

By Charles Michelson, Director of Publicity, National Committee for the New Deal. Mr. Frank E. Gamett is the author of "The New Deal," a book which is now being read by millions of people in this country.

Mr. Gamett gets most of his business from people headed for mass meetings. But others ask him to point in the eyes just to find their friends. He also makes a business of fixing black eyes obtained during the 600th anniversary.
