OLD-FASHIONED FATHERS

It is easy to play a halo around the heads of the fathers of yesterday. When we stop to think that the old-fashioned fathers had their own time and place and would be an anachronism in our own time, we are more realistic.

The fathers of a generation ago were not so much the fathers of the future as they were the fathers of the past. They were the fathers of the present, and their lives were a part of the present. They were the fathers of the present, and their lives were a part of the present.
