What's the Answer?

By EDWARD FINCH

WHAT IS THE ORIGIN OF THE WORD "DUNNING"?

WHEN England was very young, a man by the name of Dun was bailiff. He kept his efforts to the collecting of bills long overdue and was so successful that his fame spread throughout the kingdom until very name was incorporated into the language and any repeated efforts to collect payment on account came to be known as "dunning."

Large Amount Of Work Completed By WPA

More than 61 miles of new sewer line, one new sewerage disposal plant and 3 miles of new water mains, in addition to a large amount of repair work on existing facilities constitute the outstanding accomplishments in the field of public utilities of the WPA construction program reported previously. Dr. Gooch has cited the completion of 3,000 antiplane fields and the dusting of 2,000 acres of mosquito breeding swamps.

Two items of importance in the field of public health, in addition to the swamp drainage for malaria control, were also cited by Mr. Goodman: the construction of 290 sanitary toilets for families lacking plumbing facilities, and the sealing of 65 abandoned coal mines. The latter project consists of sanitary toilets by WPA has been hotly commended by the Kentucky Department of Health, he said, and erection by them with brick and concrete the prevalence of certain diseases. The latter one new drain has reduced sulphuric acid pollution in streams in the Ohio River basin by approximately 95 per cent and rendered many of the streams usable again for drinking purposes.

Recreational facilities, other than new parks and athletic fields, completed during the period include six new playgrounds and recreational centers, three new swimming pool, 18 new tennis courts and a large number of miniature golf courses.

The report, officials explained, covers only completed projects. No estimates were available on the number of projects still in operation.

Making Chicks Grow

"Growing chickens need some form of vitamin A to make satisfactory growth. Birds allowed to range about the farm during the growing season usually pick up sufficient quantities of green feed, but birds confined should have some feed that is rich in vitamin A. Alfalfa-leaf meal is one of the most economical sources of vitamin A, when all feeds must be purchased, and may serve as the sole source of this vitamin.

AUTUMN PICTURE

(Ora Ogle McCann)

Earth is color conscious in the fall—
Each tree puts on a gayly colored shawl;
The elm's in fold on fold
Of lacy yellow gold;
The maple's just a scarlet gypsy thrall;
Greens and browns of upland pasture,
Splashed with purple of the asters—
The blue sky and white clouds over all.
A soft and misty haze,
The whole picture over lays
Grays—of black and white—
From worn out days.
