Good Concrete Job

Green Bag Cement Louisville Washed Sand Screened Rock

There are many brands of Coment on the market, but we have never seen one which mixes so well with the sand, finishes with so smooth a texture and cures out as marblelike as Green Bag.

Of course these good qualities in the cement are enhanced by the use of clean, washed sand—containing no loam or dirt— and a good grade of clean rock.

This is the kind of material you will get if we furnish your next concrete job, and we would like to figure with you.
