THE TEMPTATION OF JESUS

LESSON TEXT—Matthew 4:1-11.
GOLDEN TEXT—For we have not an high priest which cannot be touched with the feeling of our infirmities; but was in all points tempted like as we are, yet without sin.—Hebrews 4:15.

Temptation is the common lot of all mankind (I Cor. 10:13). The strongest and most noble of men are subject to it; angels were tempted, and our scripture reveals that even Jesus was tempted. We recognize that Jesus was tempted as the Messiah (vv. 2, 6) and as one without sin (Heb. 4:15), but it is also true that He was tempted in all points as we are, apart from sin, and that we may learn from His temptation how we may meet and be the victors over temptation.

I. What Is Temptation?

"Temptation is seduction to evil, solicitation to wrong. It stands distinguished from trial (but) trial seeks to discover the man's goodness or character; but (the) moral qualities or character, but (the) temptation persuades to evil, deludes, that it may ruin. God tries; Satan tempts" (A. M. Fairbairn).

Temptation is not sin, but yielding to temptation is sin. Luther said, "We cannot keep the birds from flying over our heads, but we can keep them from building nests in our hair." Temptation comes from without, but it, from our own lusts (James 1:13, 14). Satan also tempts us (Eph. 6:11). He may permit temptation as a means of proving our faith (James 1:2, 3).

II. How Temptation Works.

It is significant that the temptations of Jesus were along the threefold line of the temptations of Satan and Eve (Gen. 3:6) and the general threefold temptation of all men, namely, the lust of the flesh, the pride of life, and the lust of the eyes (I John 2:16). These three temptations really exhaust Satan's bag of tricks, but he can dress up these three fundamental temptations with almost endless variety. He works

1. By appealing to the flesh (vv. 2, 3). He observes the normal appetites and desires of a man's body, excites them to a high degree, and then suggests an improper method of satisfying them. Hunger is normal and a sign of good health. Jesus had fasted forty days and Satan took advantage of that fact to suggest the use of His divine power to satisfy His hunger. This would involve a denial of His entire mission on earth, namely, the redemption of man by a divine person who had become a real man.

2. By appealing to pride (vv. 5, 6). Satan misapplied Scripture to tempt Jesus to presumption on the assumption that He was exercising faith. God had promised to keep Him "in all his ways" (Ps. 91:11). To cast himself down from the temple was not one of the ways in which Christ was called to walk. Satan comes to us with the same kind of temptation. If He cannot get us to forsake faith, he tempts us to become fanatic and to proudly substitute presumption for faith.

3. By appealing to the eyes (vv. 8, 9). By showing Christ the kingdoms of the world and offering them to Him by the short-cut of a brief act of worship rather than by the way of the cross, Satan tempted Him again. Here the devil showed his true desire that man should worship him rather than God.

III. How to Meet Temptation (vv. 4, 7, 10).

1. By the right use of Scripture. If Jesus needed that weapon, how can we do without it? How can we use Scripture if we do not study it and hide it in our hearts?

2. By dependence on God. Every Scripture used by Jesus honored God. We cannot fight Satan in our own strength. To attempt to do so is to fail utterly. The real victory for the Christian is to bring Satan back to the cross where Christ won a decisive victory over him.

3. By circumventing Satan. Jesus sent him on his way. We may do the same in Jesus' name. It is always a serious error to try to argue with Satan or to engage in any discussion with him. Let us meet him with Scripture and with a "Get thee hence."

IV. The Result.

Satan left and angels came to minister to Christ. The overcoming of temptation results in peace, victory, and blessing. This is ever so in the life of the believer. Temptation overcome makes us stronger to meet the next temptation, and also enables us to help our weaker brethren.

Framing Our Lives

Religion does not consist in the performance of certain ceremonial acts at specified times, outside which acts and times it has no place: but consists in framing our whole life, and all our acts, upon a distinct view of our position as created beings, charged by the fact of our creation, with duties both to our fellow creatures and to our Creator. —Edward Denison.

THE FARM AND HOME

In culling pullets, keep those with broad, deep heads; bright, prominent eyes; long, deep, rectangular bodies; strong, parallel legs; high carriage and active disposition. Sell those with long, thin heads; dull, sunken eyes, and short, shallow bodies.

A dairy cattle authority says that a Jersey heifer should weigh 250 pounds when 6 months old, a Holstein heifer, 365 pounds; Guernsey, 267 pounds, and Ayrshire, 267 pounds. These weights are considered the minimum for good growth.

Poached Egg Recipe: Scald milk to the simmering point in a shallow skillet. Drop in eggs and hold at simmering temperature until the eggs are white and jelly-like and a film is formed over the yolk. Use a little of salt for sherp after they gradually become accustomed to it is better than suddenly once a week. If sheep are deprived of salt too long, they may overeat of it and get sick or poisoning. Coarse barrel salt is preferable to block salt for sheep.

Four-H Club health rules for care of the eyes: Do not read in insufficient light. Do not read or study with a bright light directly on the book or paper. Do not read while riding in an automobile. Do not read while lying down.

A survey of 509 farm women showed that they worked an average of 61 hours a week. Five hours caring for the house, 3 hours laundering, 3 hours mending and sewing, and two hours making purchases.

As winter approaches, farm women should remember this: milk is one of the best protein foods for children. A quart a day is sufficient to put too much either child or adults, though the latter may prefer just a pint. Most children like milk, if they do not they may take it as custard, or with a little chocolate added.

EAT SALADS AND GROW THIN

Once relegated to the side-lines, salads now have advanced to being often a "main dish" of the tasty mid-day meal, according to Miss Florence Imlay, food specialist for the Kentucky College of Agriculture.

Even men like the streamlined modern salad. As a giant "salad bowl" of combined fruits, vegetables, dressing and nuts, it is very filling. Thus it often, with milk or coffee, and bread, gives the homemaker a day's vacation from the hot kitchen.

For an apple-cheese-egg-nut salad recipe, Miss Imlay suggests the following:

3 large tart apples
2 sticks cinnamon
1 cup sugar
3 cups water
1/2 cup chopped nuts
lettuce
boiled dressing

Wash and core apples, and slice in half-inch pieces. Make a syrup of the sugar and water, put in saucepan and add cinnamon. Cook the apples, and then allow them to chill. Arrange plentifully on a bed of shredded lettuce. Fill the center of the slices with cheese, add dressing and sprinkle with the nuts.

Late Pruning Of Hedges Not Wise

When hedges are pruned late in the fall it tends to stimulate a late growth that is often killed by winter. A circular called "Hedges—Their Planting and Care," published by the College of Agriculture, says October 1 is about the last date hedges should be pruned in Kentucky. That it is not desirable to cut hedge backs to the ground every few years in order to renew the top, as is often mentioned. Hedge may be planted in the fall, but danger of winter injury is lessened by delaying planting before N. B. Elliott, author of the circular, says that evergreens in Kentucky permit greater loss of moisture than is possible in most states.
