FROM OVER THE LINE

(J. W. Rogers)

Sorry to add the passing away of two good Nicholas county citizens, D. W. Booth and Granville Ross. We enjoyed personal acquaintance and pleasant relations with them. We are freshly reminded that we, too, must soon pass away. "to the great judgment day."

Misery, want, and woe, starvation, disease and death prevail in countries on the Eastern Hemisphere. May we America's people never do any thing that would trend toward such and end, or contribute to the downfall of democracy and American liberty.

That 4-H Achievement Day book by Mrs. Maude Seamons, East Union, is great. It finds place in our special poems scrap book. By the way we would add "One leaf is for hope and one for faith, and one is for love you know, and God put another one in for good luck, if you search you will find where they grow."

The writer has accepted a position on the WPA State-wide Rivers Benefit Card project in Harrison and Nicholas counties. It is a new and important movement and highly recommended. It will soon be our pleasure to visit Mrs. Lloyd Hughes at her work. How glad I will be, good people to see, look out for me.

SOCIAL and SOCIETY

DECEMBER

(Kathryn Clay)

December, I see you have returned,
Your smooth manners may readily be discerned;
Your chilling winds bend tree tops, bleak and bare;
Your dark clouds hide the sun.
You do not care—

You looked with envy at a glorious spring,
And are determined now to have your fling.
You cast jealous glances at a mellow fall;
You do not like calm summertime at all.

Though you are lacking all the subtle charms—
At least you hold Merry Christmas in your arms!

Bigger Cash Income Seen

In 1941 was predicted Monday in "Estimating the country's income for the current year at a bigger cash income for both the farm and the farmers $74,100,000,000, the officials forecast a jump rise to a total of $83,600,000,000 in 1941. The 1929 record was $82,885,000,000, and the 1939 income was $70,000,000,000.

The experts said that American farmers could expect an increase of at least $600,000,000 in their 1941 cash incomes despite prospects for a small volume of exports of cotton, wheat, tobacco and fruits.

They based their prediction on indications that spending under the National Defense program would sharply increase consumer buying power for farm products as meats, dairy products, fruits, vegetables, fats and oils.

The 1941 income from farm marketings and government benefit payments was forecast at $9,500,000,000 compared with $8,900,000,000 indicated for 1940, which in turn was about $400,000,000 above 1939.
