PUBLIC SALE

OF

City Property And Household Furnishings

SATURDAY, JANUARY 27, 11940

At 1:30 P. M.

This is an absolute auction and will be held on the premises located on Spring street (Docseyville) in Carlisle, Ky.

The house is a two story frame house of 6 rooms under an almost new roof. The foundation and entire construction of the house is as good as can be found anywhere. House is located on a large lot, upon which several hundred pounds of good tobacco was produced this last year. Other buildings include a new hen house, coal house and other outbuildings. House is completely electrified and has two large porches and a basement. This home is being sold only because Mr. and Mrs. Morris wish to get out of town. Gasoline and grocery business on the outskirts of town. City property of this type speaks for itself and is always in demand, so be on hand. Possession by buyers will be shown the house at any time.

We will sell the following

1 good cooking stove

1 almost new living room suite

1 dining room table

1 set springs and mattress

1 feather beds 2 bolsters

1 pillows

Some blankets and comforts

1 library table 2 dressers

1 stand table

1 rocking chairs

1 dining room table

1 dining room chairs

1 cooking stove, good one

1 heating stove

1 corner cupboard

1 cook table

2 Congoleum rugs

1 Congoleum linoleum

Bench and 2 chairs for porch

1 sewing machine

Fruit, both sweet and canned

Some meat on hand

1 clock and lamps

1 iron kettle

Other things too numerous to mention.

At the same time and place I will offer for sale a Farmall Tractor, complete with all equipment—mowing machine, plow, harrow and drag, all in first-class shape.

R. B. Amee, Deceased

Farm Income Off Two Per Cent

The income of American farmers from marketings during the first 11 months of 1939 was estimated at $6,360,000,000 by the Agriculture department. It was two per cent less than the income during the similar 1938 period.

This income was supplemented by government benefit payments of $715,000,000. Federal subsidies for the January-November period of 1938 amounted to $443,000,000.

Kentucky's 11-month income included benefit payments, was $125,125,000, compared with $114,000 during the similar 1938 period.

Crowded Cemetery

Overcrowding in the Campo Santo cemetery in Genoa, Italy, resulted in the erection of rows of marble tombs on the flat roof of its great public mausoleum.

Chamberlain, in radio address, predicts a "long war."

Dispelling The Fog

By Charles Macheboin, Director of Publicity, Democratic National Committee

Senator Vandenberg of Michigan has come thoroughly with the theory so widely voiced by Dewey, Bill Bullitt, Carley Roosevelt of New York and Senator Taft of Ohio that the simple remedy for all our economic ills is the election of a Republican President this year.

He goes a little farther in his survey of the situation to indicate that what ails us is the lack of a next President should be.

The Michigander's current article in the American Mercury lists the New Deal's failures as the New Deal's failures, he mentions the disadvantages of having administrators "who never met a payroll."

A survey of the dozen Republican Presidents who have held office since the birth of the G. O. P. would have been filled the specification was Warren G. Harding, who met a payroll as the publisher of a newspaper. It would also have fitted Grover Cleveland, who also had his payroll as the publisher of a newspaper. It does not appear that any of his conspicuous rivals for the Republican nomination this year has the indicated qualifications.

He is full of scorn for the Roosevelt administration as wasteful, inimical to business, reckless, and so on, but, as stated by the Kansas City Journal, which reviews his program: "It is apparent that Senator Vandenberg is not against the New Deal at all. He accepts its basic principles in toto."

That newspaper boils down the plan advocated by Senator Vandenberg in this fashion:

1 Retain the gains that have been made in farm relief, including the soil conservation program, crop insurance, parity payments and the Surplus Commodities Corporation.

2 Continue legal guarantees of collective bargaining, but make changes in the Wagner Act.

3 Continue social security, but with changes in policy and administration.

4 Continue the Federal guarantee of bank deposits, which was the greatest single achievement of the last eight years.

5 Retain the Securities and Exchange Commission, "Because the days of racketeering during the financial market place are gone forever."

6 Continue Federal responsibility for the relief of all employables who are not employed in private industry. Republican President opposed Federal appropriations for this responsibility.)

On relief Senator Vandenberg is quite specific. "The state," he wrote, "should receive an annual lump-sum grant from Washington, representing the Federal Government's contribution to the state's relief problem as a whole." He continues: "Thus relief will go back to the neighborly jurisdiction of home rule, where it always hereto-fore has been, where more naturally by and more economically handled."

The grant would not cover such incidents as that which occurred in Ohio when the Federal relief agency government turned its appropriation over to the states to administer. It happened in Ohio that the Governor is, or thinks he is, an available candidate for the Republican presidential nomination on the grounds that he has balanced the state budget. The newspapers charged that rather than be beholden to any of his rivals for relief appropriations, he permitted the relief in Cleveland, Toledo and other cities to be brought to the verge of starvation.

The Senator is eloquent about the farm problem, naturally! After a careful analysis, he arrives at this conclusion:

"It is impossible to draw a completely conclusive line of demarcation between the good and the bad in any farm program because all of them are essentially experimental. But the experiments must rest on constructively until a stable formula arrives because there can be no general prosperity in America without prosperity for agriculture first."

The depth and wisdom of this perfect example of platitude jugglery afforded by the Senator's ultimate goal of "stable" is indeed beyond the chief feature of the New Deal which would be abolished would be its restless and unquenchable propensity to try a new experiment on the guinea pigs every two minutes.

Of course, according to the editor-senator-patriot, anything new a Democratic administration proposes is a dangerous adventure tending to a Fascist dictatorship, and amounting to playing politics with human misery, while any Republican who is not about dead is known by his high statesmanship, destitute of political taint, and sure to be successful.

We think Secretary Hull's reciprocal trade agreements may be all right in some respects, but he would have been subjected to Congress. Shades of the Smoot-Hawley tariff bill wouldn't that an advance in foreign trade relations!

Senator Vandenberg could have put his program in fewer and more concise words than that. What he has said in ten pages of print might be put in a few lines: "Elect me President and the millenium is here!"

DEBTS, AND DEBTS

(Shelby News)

Kentucky's proud boast that it pays the state's warrant debt, all funds, has been reduced from $8,000,000 to about $6,000,000 plus into insignificance when it is learned the Federal government during the fiscal year ending June 30 put out $120,928,008 for Kentucky in benefits and outright expenditures.

The state government required four years of creditable manipulation to operate, in practice, a price certain objectionable taxes and keep a constant administrative check on revenues and expenditures, thereby paying off old debts without incurring new ones and establishing an improved credit rating. With debt service reduced practically ninety per cent, consistent eliminating the patchwork taxation and a new governor dedicated to economy in governmental operations, Kentucky has a right to view its future with optimism.

Whether this condition may be attributed to Federal assistance is another question, but from the standpoint of budget-balancing and consequently, Kentucky as a whole, what actual gain has been made in the face of over-all increases? Direct grants alone amounted to $56,962,505, twice that of the Kentucky share, and $14,000,000 of the half of the total Federal cash expended for everyone of the Wood, state director of the office of government reports, has been classified as "magnificent." And Mr. Wood hit the nail on the head; it is magnificent. In fact, it amounts to approximately $15,000,000 more than Kentucky received in tax revenues in 1939.

It is wonderful to have a Federal government that will reach down in the sock and pull out greenbacks for practically all things. Shelby county and Shelbyville have benefitted exceedingly well by such generosity. But what kind of generosity is it that has made us dependent upon it? Direct grants for the entire year, we may safely assume, will be $20,000,000 or more, to be correspondingly higher."

Throughout the state, 49,000 persons were paid unemployment insurance in the sum of $4,303,435.00 during the first ten months of 1939. This represents an average of $87.82 per beneficiary, and an average of $8.44 per check issued, the bureau reports.

There was considerable variation in the average weekly payment paid to claimants of the various counties. Weekly payments are shown as the average wage received by the workers during periods for which benefits were paid. Workers of Greenup county received the largest amount per check. Their payment per week averaged $11.70.

Dies Committee Will Continue Probe For Year

The Dies committee was given another year Tuesday to investigate un-American activities.

After two hours of loud and tense times angry words, the committee was voted 255 to 21 for continuance. The opponents were 20 Democrats and Rep. Mrcantonio (AL-N.Y.). All the Republicans who voted—and most of them did—voted for it.

The committee was organized in 1938 and extended in 1939. The present appropriation runs out December 1934, Mrs. Sawel was made administrative director and she has organized more than 400,000 farm women into the group.

Five Constitutional Amendments Proposed

Eight bills proposing five constitutional amendments have been introduced in the legislature although the constitution prohibits more than two being submitted at one election.

The amendments would permit enactment of a compulsory workmen's compensation law, allow the use of voting machines, reduce the frequency of elections to one every other year, restrict expenditures of gasoline and oil revenue to road purposes, and extend state aid to the needy blind and to dependent children.

Ghost Basket Ball Game Here Jan. 31

Spooky Contest To Be Played In Carlisle Gym by Ghosts, Irvine Coming Friday

Rehearsals are being held in the school auditorium each night and approximately forty-five local people are members of one of the two social and instrumental clubs. Everybody has been declared for the show.

Mr. Newton was for 11 years a member of the cast of the Al G. Fields Minstrels and has had wide experience in directing and producing home talent minstrels. He will have charge of the local show.

All costumes and scenery used in the show is professional paraphernalia belonging to Mr. Newton and other members of the show.

Jenzil Potts, superintendent of the Ripley, Ohio schools, has declared that educational and entertainment, which has proven extremely popular in the past, will not be an advance in foreign trade relations!

The admission will be 25 cents for everyone and no exception is promised.

Irvine high school will come here Friday night for a game with the Musketeers. The M. M. I. second team will play the Carlisle reserves in a preliminary game.

Nicholas Unemployed Paid $2,832 In 1939

Thirty-One Unemployed Workers In County Received Checks For First Ten Months

Unemployed Nicholas countians received 319 Unemployment Compensation checks totaling $2,832.20 during the first 10 months of 1939, Virgil E. Barnes, Executive Director of the Kentucky Unemployment Compensation Commission announced Monday. Over the period 31 persons filed claims for unemployed workers filed claims for 1,274 weeks of unemployment. Thirty-one of these claims were allowed and 29 workers claimed their benefits, early waiting time. The claims disallowed, mainly, were for the because of insufficient wages earned by claimants.

The figures pointed out that total cash benefits going to residents of the county averaged nearly $9 per week, the average weekly payment of $8.12 per week, according to the report.

Each recipient drew an average of more than 12 checks for an average of $97.67. The duration of unemployment during the first ten months of 1939 was longer than that of the same period in 1938, when 29 persons filed claims for 1,274 weeks of unemployment during the first ten months of the year. The average duration of unemployment was 41 weeks.

All of the meetings will be held Tuesday at 2 p. m., except the meeting in Carlisle, which will be held at 9 a. m. The meetings scheduled are as follows:

Monday, Feb. 12—Parks school building.

Tuesday, Feb. 13—Ritchie's store in Moorefield.

Wednesday, Feb. 14—Myers school building.

Thursday, Feb. 15—East Union school building.

Friday, Feb. 16—Headquarters in Carlisle.

Monday, Feb. 19—Ellisville school building.

Tuesday, Feb. 20—Court house in Carlisle.

Wednesday, Feb. 21—Moorefield school building.

Farm Bureau To Hold Banquet Friday Night

Mrs. Charles W. Sewell, Of Chicago, To Be Principal Speaker At Banquet At Masonic Hall

The annual banquet of the Nicholas County Farm Bureau will be held at the Masonic hall Friday night, January 26.

It is expected that approximately 150 people will attend the banquet, which will be open to members and their wives. At this meeting the annual election of officers will be held.

Mrs. Charles W. Sewell, of Chicago, president of the Illinois Federation of the Associated Women of the American Farm Bureau Federation, will be the principal speaker at the banquet. In 1929 Mrs. Sewell commenced the task of organizing home and community work for the Farm Bureau, developing a handbook and complete organization plans. These same plans have been successfully employed in the organization of over 15,000 community units of the Farm Bureau.

When the Associated Women of the Farm Bureau was organized in December, 1934, Mrs. Sewell was made administrative director and

Construction On New REA Project Started

Construction on "C" Project of the Flemingsburg Municipal Plant is now underway and contractors have moved in on the job last week. All who wish to get service on the new line should sign up for it at once and make arrangements for their wiring.

When this project is completed there will be 607 miles, 1765 members, with lines in Fleming, Mason, Lewis, Harrison, Nicholas, Bath, Greenup, Elliot, Nicholas, Carter, Rowan and Montgomery counties.

The approximate cost of construction of the Project will be $101,425. This includes the materials, substation, and labor. The average cost per mile will be $642. The Brown Wood Preserving Company will furnish twenty-eight carloads of poles, the Aluminum Company of America will furnish 395 miles of wire and the General Electric Company will ship 211-kva transformers ranging from 1-2 KVA to 10 KVA. Lines will provide nearly 26,000 man hours labor.

Library, Uni. of Ky.

THE CARLISLE MERCURY

VOLUME LXXIV. ESTABLISHED 1867 CARLISLE, NICHOLAS COUNTY, KY., THURSDAY, JANUARY 25 1940 NUMBER 4

Burley Average $19.18 For 42 Million Pounds

Price Climbed 40 Cents Per Hundred On 21 Markets Of State Last Week

COLD CAUSED CLOSING

Kentucky burley tobacco growers last week sold nearly 42,000,000 more pounds of their 1939 crop, but below-zero temperatures dealt the markets a body blow Friday and most of them suspended sales early in the day until the weather moderated.

Last week's average for the twenty-one markets which were open climbed 40 cents above that of the previous week, going to $19.18 a hundred pounds. Sales for the week were 15,000,000 pounds at $3,019,276.27. Of the poundage, all except 1,121,000 pounds was sold the first four days. The other 1,121,000 pounds weather stopped sales.

Sales for the season now total 221,631,831 pounds, which put into circulation $42,500,000. The season average of $17.09 a hundred pounds is the highest since 1930.

Last week's higher prices were sufficient to lift the season average 31 cents above that at the end of sales the previous week.

Each week since the season opened on November 6 the statewide average has climbed above that of the previous week. The first week the average was $16.09 a hundred pounds. The second week's w
