Day Days.

"Day days" in the term applied to that time when the sun is shining brightly and the temperature is in the 70's and 80's.

Another feature of the season is the fact that the sun is shining brightly and the temperature is in the 70's and 80's.

Conditions Not Remedied.

Violating the National Code July recently, we observed that little progress has been made toward correcting the industrial and income conditions of which some of the great gains have been made.

Washington Merry-go-round

Washington, D. C., July 11.—The merry-go-round of the political scene is in full swing.

Another peculiarity of the present situation is the fact that the cotton industry depends on domestic consumption and exports.
