

ANNOUNCING THE OPENING OF TOYLAND Saturday, November 30

Our entire basement will be given over to Toyland this year. You will be amazed when you see the thousands of toys in our stock.

Make our store your headquarters this year. From our line you may select an attractive and appreciated gift for every member of the family.

KNOWN FOR BETTER VALUES

Our stock of toys this year will be the largest and most complete ever shown in Carlisle. Old Santa can fill his pack from our stock. Items from 10 cents up.

DEMOTING THE CAPAINS

Recently we all celebrated Thanksgiving in our own way. Most of us were happy because we were able to get through all of our own business.

Another fact about tuberculosis is that it is no respecter of persons. It attacks the rich and the poor, the old and the young, the intelligent and the ignorant, the high and the low. It strikes everyone.

No medicine that is so applicable cure has been found so effective against tuberculosis up to the present time. The general methods of treatment are good, fresh air, freedom from worry, rest and nutrition.

Fifty years ago it became clear that it was not sufficient to provide fresh treatment alone, but that efforts would have to be directed toward preventing the spread of the tubercle bacilli from one individual to another.

It was to bring about this widespread understanding that the simple facts about tubercle bacilli were made known to the public.

On Guard Against Dressed Diseases

Wearing garments which harbor germs of disease is a common cause of illness. The communicable disease of typhoid is introduced into the body through food and water.
