Advertising is ROMANCE

YOU READ THE ADS. As you read, the tee. A hard-hooked fish and a

yourself of a summer evening in this drifting white chiffon, softly printed with delicate blossoms.

Foods? A cool, jolly dinner, with exciting news of the family's

Sporting goods? A slashing tennis game. A well-hit drive from screaming reel.

Some people say that all enthusiasm should be taken out of advertising. In books and speeches they crusade for bleak little ads that give nothing but thread counts, strength and chemical tests, dimensions and prices. What a pity if they had their way!

Advertising is one of the welcome voices that directs our eyes upward. It has worked wonders n raising our standard of living. Let's encourage it to continue on its inspiring way.
