SAY YOU SAW IT IN THE MERCURY

IS IT REASONABLE —IS IT FAIR?

The Louisville Courier-Journal reported in a front page article on February 7, 1942, concerning the electric power bill now before the Legislature:

"The concensus is that the *Administration will exert whatever pressure* is necessary to pass the bill, perhaps next week.

"Another sign of Administration interest heartening to proponents of H. B. 146 was the presence in Frankfort of the advisory highway commissioners last night and today. *Each was understood to be under orders to press hard for support of the measure.*"

If this statement be true—

Are unfair political practices being adopted to force unpopular laws through our Kentucky Legislature?

Why all this "Administration pressure" to pass a law which—

(a) Surrenders State's rights.

(b) Strikes a death blow to the second largest taxpaying industry.

(c) Is the most **vicious form of special privilege.**

(d) Is not needed until after 1944.
