If the "radio ham" of the United States were to persuade the Federal Communica-

tion Commission to permit the use of amateur radio in the home, it would be a

great step in the direction of making the radio a more useful and practical

medium of communication. It is true that the radio has been used for many

years, but it has not been until recently that it has become a household

word. This is due to the fact that the radio has become a more practical

medium of communication. It is true that the radio has been used for many

"An Editor's Random Thoughts"

Editor's Note: For several years past, throughout the country, we have seen a number of

articles in the newspapers and magazines which have been written by persons

who are not qualified to write on these subjects. It is true that the radio has

become a more practical medium of communication. It is true that the radio
