IMPORTANT TO YOU AND YOUR NEIGHBOR

Please Read and Act!

Members of the Kentucky Legislature at Frankfort are talking about passing a special privilege law for the sole benefit of the Tennessee Valley Authority.

This Company has not at any time opposed the coming of TVA into our State, but has vigorously opposed the manner of its coming.

The Company has always co-operated with TVA and other federal agencies in the sale and distribution of electric energy in order that the users would benefit most.

To continue such cooperation we ask only that TVA operate under the same laws as we do.

The Company is legally advised that the TVA does not need a special privilege law permitting it to come into Kentucky. The bar-

rier that keeps the Authority out is its own operating rules. These rules are in conflict with our State laws. Why not change the rules instead of the law?

With many other citizens, the Company believes that no special law should be passed that gives a federal agency—or any group—rights and privileges not given to others in the same business.

As a taxing Kentucky business, the Company—with many other taxpayers—earnestly believes there should be no such discrimination. It is unfair, undemocratic and destructive.

A deep basic principle—that state's rights and self-government—is involved in this question.

The Company is legally advised that the TVA does not need a special privilege law permitting it to come into Kentucky. The bar-

rier that keeps the Authority in the State—will be vitally affected by the passage of this special privilege bill. You should do everything possible to convince your senator and representative that they should get all the facts about the bill before drawing their conclusion. ACT TODAY.
