Let's Strike Up the Band.

Seventeen Nicholas county boys will leave here on the morning of May 19. They are going to the States to join the army.

It will be in the morning's early light when those boys leave for their new life. It will be a little bit chilly at that time of day. It won't be too long before the sun will be shining brightly on his part in this terrible struggle.

If we follow the path we have taken, there will be no way around on hand to see those boys off. They will be gone. That's all.

There is a mission, those boys who will go with them. They didn't ask for the mission, but they will receive it. It is to protect this nation, to protect this country from being overrun by a horde of barbarians.

There was an automobile parked up by the side of the road. It was a new one, a four new tires. You remember—new tires.

They are doing all this for us. Certainly they want to do it for us. They want to be a part of our defense. They want to be a part of our country's protection.

They are doing all this for us. They want to be a part of our defense. They want to be a part of our country's protection.

REDDY KILOWATT SAYS

Now You Get As Much As 12% Electric Service for Your Money!

Let's look at the figures: A five-dollar bill bought 52 kilowatt hours (KWH) of electricity in 1930. Today it buys 123 KWH. That is 187% more for the same money. Three dollars bought 31 KWH in 1930. Today it buys 37 KWH. That is 84% more for the same money. One dollar bought 16 KWH in 1930. Today it buys as much as 14 KWH. That is 60% more for the same money.

Did you ever get a million's free rent, or process, or fuel, or gasoline, or other necessities for your money? While we have been steadily cutting electricity rates for our business management the general cost of living has gone as steadily up as the cost of government. (See Reddy KiLOWATT's book "The New American Way" published by Paul Harbo's book-publishers.)
