The Mercury's Policy

During the Campaign.
The Mercury has declared the local option
campaign which is about to close, attempted
in all honesty to give to each contestant
a right to be heard.

Both the group favoring county prohibition
and the group which favors the legalized
sale of spirits have been granted the freedom
of both our advertising and our news
columns to express their points of view.

It has been a fall lacking in the gorgeous
coloring that makes the countryside a region
of beauty in October. The trees are
green, the grass is green, the sky is blue.

Many times during the campaign we
have been in the matter of local option
and have been addressed to you.
By letters that have been addressed to you.

That is the policy we have attempted to
pursue in this matter of local option
and we are glad that it has been waged on
the high plane of the majority, which is the
true test of democracy.

The Scrap News is Very Real.
This is an "old" news item.
That was the way Judge Rowan Dalton
of Louisville summed up a group of
representative citizens on Friday
at the Nicholas county court house.

The quota allotted for Nicholas county is
one hundred pounds per person. That
means that in order to fill the quota which
has been given us, we must produce some
400 tons of scrap material in Nicholas
county this year.

To gather this material and see that it
started into its proper work channels is
a simple matter which person must appoint
himself a committee to administer this
work.

Let Us Forget.
On September 23, 1940, Republican Rep.
Roy O. Woodruff of Michigan said:
"Four years of charges has been man-
ufactured by the New Deal Administration
in the name of political expediency in order
to convince the people that our
situation in the world is a hopeless one."
