Let's get from OUR BOYS in the SERVICE

Somewhere in Australia
Thursday, Sept. 15, 1942

Just received a letter from you this morning. It was written July 20. I enjoyed every letter from you in the past. I am glad to hear that you are well and that you are still in the service. I hope you are still in the service. I hope you are still in the service. I hope you are still in the service.

CRIMSON CLOVER

Conditions are fine right now for sowing Crimson Clover, and due to the fact that there is very little, if any, nitrogen fertilizer sold next spring, it would be very beneficial to have a good stand of this wonderful nitrogen producing legume to turn under.

OTHER FALL SEEDS

We have a full stock of highest grades of Timothy, Blue Grass, Alfalfa, Winter Vetch, Eye Grass, etc. also smooth and bearded Seed Wheat, Northern Seed Rye and Seed Barley.

Dehydration
Isd Impaction

Most military importance is as a factor contributing to the development of dehydration, which is a common condition during the summer months. It is caused by excessive sweating and is characterized by thirst, weakness, and a dry mouth. It is especially important in the tropics and in the high mountains.
