The People Want to Win This War

There has been a lot of loose talk this week about the people in America are apathetic over the war effort...

Well, we disagree with that and disagree with that war is terrific. It is the people who are the most terrific...

Look at the record. Has there ever been a single thing in this war that has been asked for by the people...

Let's have more training of the youth and pointing of the youth to work with their own hands...

It wasn't the people who would have prevented the war that was won...

At Last a Good Song. There has been but one good song composed of this war...

However, we can't say a warning about the fact that the people in America are apathetic...
