KENTUCKY FARM NEWS

Edwin Dodson of Steuben-ville, Wayne county, harvested more than 500 bushels of Full-win oats on seven and one half acres. The remarkable growth during the winter months, and high grain yield in comparison with common oats, have led many farmers to grow it.

Last year, 40 acres of vetch were seeded in Madison county. This year, William Lanford alone seeded 100 acres on his farm on the Lexington pike.

Millard Sutton, Jr., a 4-H club boy in Harlan county, raised 90 per cent of his chickens, gathered 80 bushels of beans, canned 487 cans of fruits and vegetables, made 42 glasses of jelly and four gallons of sauerkraut, and has four bushels of dried beans for home use. He also has a good corn crop.

Boone county farmers harvested one of the largest and best hay crops in years. Korean lespedeza made up a large part of the total tonnage.

Buford Estes of Powell county made a good income from 14 ewes, five western and nine native. He sold 18 lambs and 81 pounds of wool for $200, realizing over $18 per ewe.

Three thousand pounds of vetch seed, the first ever produced for sale in the county, was put on the market by James H. Moore of Hopkins county. The agricultural conservation committee has ordered 160,000 pounds of seed.

In Owsley county, C. M. Burch planted six rows of beans 100 feet long from which were canned 250 quarts, several bushels dried, 25 gallons pickled and two bushels saved for soup beans.

**Kentucky Cows High Producers**

Dairy herd improvement association reports received at the Kentucky College of Agriculture show that there are many high producing cowsin the state. In two associations, 69 cows have records of 400 pounds or more of butterfat in 305 days.

Berea College has 29 cows with 400-pound records. One cow in this herd produced 715 pounds of butterfat in 305 days, and 14 cows produced over 500 pounds each. Eastern State Teachers College at Richmond has six cows that have gone over the 400-pound mark. Spindletop Farm in Fayette county has seven with records of 400 to 690 pounds in 305 days.

Farmers owning cows with records of 400 pounds or more include E. P. Eastin, Lexington; W. F. McMurry, Paducah; E. F. Warren, Hickory, and H. M. Holloway, L. L. Thompson, Dr. J. C. Melvin, S. S. Andrus and R. N. Maddox of Mayfield.

**Big Tobacco Where Cover Crops Used**

County Agent H. S. Long says the best tobacco in Scott county was where vetch and wheat were turned under and phosphate and manure used. One man who turned a heavy growth early in the spring had tobacco shoulder high and of fine texture. He expects the yield to be 1,800 to 2,000 pounds to the acre.

Another Scott county man found phosphate and manure superior to complete fertilizer and manure in the production of high-quality tobacco. The part of the field getting manure and 500 pounds of phosphate to the acre grew tobacco that matured earlier and of finer texture than grew on the part of the field where 400 pounds of 6-8-6 was used to the acre. Crimson clover was turned under in both instances.

**OAKLAND MILLS**

(Mrs. Earl Hamm, Cor.)

Mr. and Mrs. Earl Hamm spent several days last week in Cincinnati and attended the ball game.

Katherine Dolzell of Carlisle spent the week end with Imogene Shannon.

Mr. and Mrs. Russia Gaunce and Deloris Gaunce spent Sunday afternoon with Mr. and Mrs. Dorsey Watkins and family at Jacksontown.

Mrs. Curtis McCann spent Wednesday afternoon with Mrs. Janie Paris.

**Experts Tell How to Keep Sheep Healthy**

While sheep suffer from various diseases, the Kentucky Experiment Station says the more serious losses are due to worms. These losses include deaths, loss of flesh, unthriftiness and anemia. Wormy sheep require more feed than those that are relatively free from worms.

The common names for the principal internal parasites of sheep in Kentucky are nodular worms, stomach worms, hookworms, intestinal worms, tapeworms and coccidia.

Phenothiazine removes nodular worms, stomach worms, hookworms and a number of the intestinal worms. The mixture of bluestone and blackleaf 40 removes tapeworms, stomach worms and some of the intestinal worms. There is no effective treatment for lungworms or coccidia.

It is very important to protect the young lambs from worms. This requires a worm-prevention program of long duration.

Sheep that are brought to the farm from any source should be kept isolated from the flock for at least three weeks. During this time they should be treated first with phenothiazine and two weeks later with the bluestone and blackleaf 40 mixture.

The entire flock should be treated with phenothiazine two months before breeding begins and in July or August after the lambs are weaned.

The ewes should be treated with phenothiazine one week to ten days after lambing and then placed on a clean pasture.

Flocks that show evidence of tapeworm infestation or have had an unusual amount of trouble with worms should be treated with the bluestone and blackleaf 40 mixture two or more times.

The skin and the membranes of the eye of wormy sheep lose their pink color and become white. An examination of the flock every week or ten days will indicate when it is time to treat for worms.

In addition to treatment, clean pastures are an essential part of a worm-prevention program. A clean pasture is one that has had no sheep on it for one year or better, two years if it may have been used as a pasture for other farm animals, as a hay field or been under cultivation. Clean pastures will help to control all worms, including lungworms and coccidia for which there is no treatment. If a worm-prevention program is followed for two or three years the number of treatments required for worms will be reduced.

**Much Low-Grade Fertilizer Sold**

Of the large amount of fertilizers sold in Kentucky last year, nearly three-fourths was low grade, according to the Agricultural Experiment Station's annual report on commercial fertilizers. About 50,000 tons of commercial fertilizers were sold that contained 17 per cent or less of plant food. This means that about 13,000 tons of inert filler or worthless materials were bought by farmers.

The Experiment Station considers that any mixed fertilizer that has a total plant food content of less than 20 per cent is a low-grade product, and a poor bargain for any farmer.

**Farmers Conserve Time and Labor**

Kentucky farmers are learning tricks to save time and labor, during this critical period of man-power shortage, according to the State College of Agriculture and Home Economics.

One man found that he could fill his 32-foot tobacco barn with two extra loads and a device quickly made on the farm. He nailed three light boards together to make a triangle, then fastened two 10-inch long pegs to two corners. To the third corner he tied a 65-foot hay rope, running it over a pulley fastened to a board across the top tier. Five or six sticks of tobacco were placed on the device by the man in the wagon who elevated the tobacco to the man in the top of the barn.

Another farmer will save time and labor by shucking his shocked corn into large baskets which hold two and one-half to three bushels. Empty boards on a wagon box will permit another farmer to husk from shock to wagon.

A 12-foot hay frame made a self-feeder for feeding ear corn to the hogs on another farm. The frame, with the ends boxed in with scrap lumber, was fastened at an angle to the side of a building. The lower edge of the frame was 6 inches from the feeding platform and 2 feet from the building.

A manure spreader, loaded with ear corn, provided a quick way for a farmer to spread ears on sod land for his hogs.

**Laurel Family is Self-Supporting**

Mr. and Mrs. D. L. Johnson of Laurel county have developed a good live-at-home program. Miss Wilma French, home demonstration agent, found when she called on them, that their canned fruits and vegetables and also stored considerable quantities.

The Johnsons grow their own wheat and corn and have flour milled and corn meal ground. Sufficient pasture and meadow is produced for the family with some to sell. Later in the season, they will have their hogs butchered, which, with chickens, will provide a good variety of meat.

**Oil Meals to Help Livestock Feeders**

The smaller amount of feed grain per animal available for the coming year may be offset in part, in the use of more protein supplements, as noted in oil meals, says a statement from the Kentucky Agricultural Experiment Station. Due to the increase in livestock production, it is expected that there will be 6 per cent less grain per animal in 1943.

There is enough soybean cake to balance only about a sixth of the grain that will be fed to livestock. To balance the rest, especially corn and all meals now fed, additional oil meals will be needed. Fortunately, there are abundant supplies of soybean cottonseed and linseed meals. At the current ratios of corn and tankage, those oil meals are worth about $5 a ton, but one ounce of soybean oil meal will balance about three bushels of corn. Thus, about 500 tons of soybean oil meal would balance 1,500 tons of corn.

[illegible] Makes Manure from Poultry

[illegible] Mayfield county [illegible] Mr. and Mrs. W. [illegible] Hamm, 73 and 75 years old, [illegible] manure from [illegible] chickens [illegible] 1,000 pounds of 6-8-6 [illegible] manure [illegible] fertilizer [illegible] corn, but [illegible] soybean [illegible] 500 [illegible] corn, worth about $75 a ton, [illegible] soybean oil meal [illegible] this figure.

Cattle running on [illegible] pasture before wheat [illegible] commission supplement [illegible] beef [illegible] should receive [illegible] and two pounds of oil meal [illegible] per day, respectively.

When oil meals are used to [illegible] produce meat or [illegible] the cash in feeding hogs, finely [illegible] limestone should be [illegible] before them.

The high [illegible] of the oil meals will help to produce more meat in two ways. Their use will permit the production of a given amount of meat with less harvested grain. Then, the adequate use of such protein supplements will result in larger, more rapid and more economical gains.

**Root-Rot Disease Caused Tobacco Plants Start Slowly**

Root-rot disease and not wire worms prevented some tobacco from growing properly the early part of this season, according to the reply of the Kentucky Agricultural Experiment Station to inquiries of farmers. When slow-growing plants were pulled up and found riddled with wire worms, farmers were inclined to place the blame on the worms.

In fertile soil, Dr. W. D. Valleau, plant disease man at the station, says wire worms cause little injury to plants which were not too spindly when set. In most cases investigated this year, he found black root rot the cause of slow growth.

Unless the soil is known to be free from the root-rot disease, Dr. Valleau advises growing varieties resistant to this disease. At least three such varieties are available to growers. Ky. 16, which is well-known throughout Kentucky; Ky. 11-A, a variety developed at the Agricultural Experiment Station, which is, if anything, slightly higher yielding and of at least equal quality to Ky. 16; and a variety called Canadian, some strains of which are resistant to the root-rot disease.

Dr. Valleau has this to say about the reputed tobacco growing situation: "In no time, when labor is scarce and expensive, should any farmer knowingly put in a loss of that much labor and land to the nation."

**AMONG THE COUNTY AGENTS**

Ira Rose of Adair county used a combine to harvest 32 acres of cowpea seed from five acres.

Several farmers in Christian county cut five tons of alfalfa hay to the acre this season.

Bryan Whitfield of Harlan county harvested 420 bushels of potatoes on one and three-fourths acres.

Total scrap shipped from Breathitt county in the first six months of the year was in excess of 3,250,000 pounds.

Approximately 10,000 lambs have been sheared in the late shearing program in Bourbon county.

In Whitley county, farmers are boosting the use of an annual cover crop, with many saying that it is the best ever grown.

For the first time in years, a surplus of red clover seed will be produced in Taylor county.

More than 6,000 sheep have been dipped in Madison county. Eighty acres of an unusually good corn crop, with many saying it is the best ever grown.

In 15 homemakers' clubs in Jefferson county, 382 women are enrolled.

A field of 25 acres of Ky. 102 hybrid corn in Green county will yield an estimated 50 bushels on upland.

**ELLISVILLE SCHOOL NEWS**

The Ellisville 4-H club met October 1 at the Ellisville school. The purpose of the meeting was organization and discussion of the 4-H fair.

J. C. Simms was chosen president. John Reeves Anderson, secretary and treasurer. John Allen Bell, reporter. Mary Boyd Anderson, song leader; Mary Lou Branyan, cheer leader; E. J. Caswell, reporter.

Miss Annabel Hamilton has charge of the music instruction in the school for the school term.

F. Huntsinger, photographer from Paris, Ohio, took individual pictures, of all the pupils in the school Wednesday, October 7.

The pupils of the school are cooperating in the scrap drive 100 per cent.

Rev. and Mrs. Estal Taylor, teachers of the school, on Tuesday, September 29, Mr. Taylor gave a very interesting and inspirational talk. Mrs. Taylor led the school in singing several songs.

The school softball team won their first game Friday, Oct. 2 from Headquarters 7th and 8th grade team by a score of 5 to 0.

Rev. C. C. Tanner began a meeting here Monday evening, October 12. He is assisted by Rev. Marvin Richardson, who comes recommended as a good speaker.

**ROSE HILL**

Mr. and Mrs. Tone Fryman were recent guests of Mr. and Mrs. Herbert Morris.

Mrs. Sallie Ritchie spent the week end with relatives here.

Mr. and Mrs. Cecil Mynear and children visited Mr. and Mrs. Robert Mynear one afternoon last week.

Mrs. Howard Ritchie spent Friday with Mrs. Erma Flora and children.

Mr. and Mrs. Elmer Ritchie and daughter were Sunday guests of Mr. and Mrs. John Stephenson.

The Woman's Society of Christian Service will meet at the church Thursday, October 15 for an all day service.

**BAREFOOT**

Luther Hollar and Ray Mc-Kenzie were Sunday guests of Raymond Coy.

Mr. and Mrs. Robert Sosby, Mr. and Mrs. Robert Harney and daughter, Mr. and Mrs. J. B. Wagner were at the bedside of Mr. J. W. Sosby who is very ill.

Mrs. Luther Hollar is on the sick list.

Mrs. Earl Froman was a Saturday guest of her sister, Mrs. Raymond Coy.

Rev. and Samantha Liven-good were guests of Floyd Pitt and family one day last week.

Dorothy and Mavice Pratt were Sunday afternoon guests of Mrs. Willie Coy.

# CORRESPONDENCE

**LICKING**

Mr. and Mrs. Claude Linville spent Sunday with Mrs. Sallie Dayton of Pleasant Valley.

Mr. and Mrs. Anthony Buchanan and Miss Flossie Herrington, Mr. and Mrs. Alfred Buchanan and family and Esther Ruth Bowles of Ahners Mill, Mr. and Mrs. Henry Campbell and family, Mrs. C. F. Letcher and son Henry, of Pleasant Valley, spent Sunday with Mr. and Mrs. R. H. Campbell.

Jake Darnell and Junior Caywood and Clarence Darnell spent Sunday with Albert Moran.

Pvt. Luther Campbell of Georgia spent from Thursday until Monday with his family here.

Pvt. Junior Hildreth of Georgia spent from Friday until Sunday with his parents here.

Mr. and Mrs. John Howard and family spent Monday in Maysville.

**LOCUST GROVE**

(Mrs. James F. Sadler, Cor.)

Mrs. Robert Grayson spent Wednesday with Mrs. Tivis Minton.

Mrs. Dorothy May Shrout is employed in Covington.

Congratulations to the newly-weds. Miss Geneive Vice and James Harney.

Mr. and Mrs. Everett Higgins and family spent Sunday with Mr. and Mrs. J. C. Tedder.

Charley Mann spent Saturday and Sunday with his parents, Mr. and Mrs. Charley Mann.

Mr. and Mrs. Albert Buckler and family spent Monday with Mr. and Mrs. Ben Crowe at Cane Ridge.

Mrs. Albert Buckler spent Monday with Mrs. Nannie Mann.

Mr. and Mrs. Harold Newman and family and Mrs. Harry Hardin and son Frank, spent the week end with Mr. and Mrs. John Stone.

Mr. and Mrs. C. K. Cannon of Paris and Mrs. Belle Cannon spent Sunday with Mr. and Mrs. Ollie B. Cannon and daughter.

**BALD HILL**

(Laura O. Dotson, Cor.)

Mrs. George Shepherd spent last week with friends and relatives in Robertson county.

The good Doc B. Miller came from Sunnyside last Thursday to his daughter in order to help our county go dry on Saturday.

Mrs. May Ogden of Monticello, Ky is in, visiting her father, B. M. Brown and other relatives. She was accompanied here by A. F. Ogden who came over to spend the week end with his daughter, Mrs. Ruth Brown Woodall of Wilmore who will bow at present.

Mrs. Ruth Woodall spending a few days with her daughter, Mrs. Jessie Hendon in Cincinnati.

Joe Miller came in last week from Detroit, Mich. to take care of his farm interests.

Mr. and Mrs. Maxwell Hudson and little daughter Mary Ann of Wilmore spent Sunday here with Mrs. Hudson's parents, Mr. and Mrs. J. M. Brown.

Mr. and Mrs. Morris Hardin and family spent Sunday with Mr. and Mrs. Lloyd Evans and family.

Mr. and Mrs. Tommie Jolly, Mr. and Mrs. Tony Hamilton and wife, John Hamilton and Mrs. Lloyd Evans spent Saturday in Paris.

Rev. Dunnier and wife of Carlisle and Mrs. Anne Henson spent Sunday with Mrs. Jessie Dunnier and Mrs. Anne Henson.

Mrs. Elmo Biddle spent Wednesday in Maysville.

Mrs. H. Alexander spent Monday and Tuesday with Mr. and Mrs. Jimmie Hudgens in Lexington.

Mr. and Mrs. Powell Donald's son of Hill Top spent Sunday with Mr. and Mrs. Ovel Donaldson.

**MILLTOWN**

(Mrs. Sterling Jackson, Cor.)

Mrs. Curtis McIntire was a Saturday afternoon guest of Mrs. Sterling Jackson.

Mr. and Mrs. Tom Moore of Carlisle are guests of her daughter, Mrs. Elgin Clark and Mr. Clark.

Mrs. Connell Snedegar and daughter, Laura, are guests of Mr. and Mrs. Charlie Grey at Sheburne. Mrs. Gey is seriously ill.

Miss Carrie Jackson was a few days guest of her cousin, Thomas Planck and wife last week.

Mrs. Levi Ishmael and daughters were guests of her sister, Mrs. Hobert Eton and Mr. Eton a few days last week.

Foster Bussell returned home Monday from housing tobacco for Howard Jolly in Fleming county.

The little daughter of Mr. and Mrs. Curtis McIntire were Saturday guest of her grandparents, Mr. and Mrs. Bruce McIntire at Battle Run.

Mr. and Mrs. Cecil Shannon of Indiana is home on a visit.

Robert Bussell and daughter Mrs. Luther Thornsburg was a guest of his sons, Martin and Foster Bussell Saturday afternoon.

**MORNING GLORY**

(Helen Riley, Cor.)

Mr. and Mrs. Johnnie Lawrence, Miss Ollie Morris and Mrs. Gladys Riley spent Sunday at Ft. Thomas visiting Pvt. Walter Lawrence.

Mr. and Mrs. Carl Harney and Mr. and Mrs. J. C. Harney were guests Sunday of Mr. and Mrs. Roy Neal Florence.

Mr. and Mrs. Lawrence Rankin and daughter Norrie, Mrs. Malcolm Reno and Mrs. Blanton Riley were in Lexington Saturday.

Mrs. Rose Franklin, Mrs. Margaret Kenner and Mrs. Smith Mays spent Friday with Mrs. Sam Smith.

Pvt. Woodrow Florence was a guest of his sister, Mrs. Rose Franklin, Sunday.

Mr. and Mrs. Oliver Overby and daughter were Sunday guests of Mr. and Mrs. James Brunker.

Pvt. James and Joe Smith are visiting Mr. and Mrs. W. E. Smith and family.

Mrs. Virgil Florence and children and Mrs. Gladys Barbee and children spent Saturday with Mr. and Mrs. L. J. Fryman and family.

Mrs. Blanton Riley spent one day last week with Mrs. Walter Collins.

Mr. and Mrs. Marvin Cordery and son Wayne were guests of Mr. and Mrs. J. C. Harney one night last week.

**HOG JAW**

(Mrs. Nathan Ritchie, Cor.)

Mrs. Tanner and family and Mrs. W. E. Magee were guests of Nathan Mann and family Saturday.

John H. Sallee has returned home after spending the week with his daughter in Toledo, Ohio.

Those present at the party at Thomas Wagoner's Saturday night were:

Mr. and Mrs. Marvin Florence and family, Mr. and Mrs. Clarence Parks, some guests of their daughter, Mrs. Parkwine who is home on furlough.

Rosabelle Woosmer and family were Sunday guests of Clifford Mann.

Mrs. Mary Jewell Woosmer spent a Saturday afternoon guest of Mrs. Nannie Mann and Mrs. Wilbert Ritchie.

Mr. and Mrs. Morris Hardin spent a Sunday guests of Mr. and Mrs. Lloyd Evans and family.

Mrs. Elmo Biddle spent Wednesday in Maysville.

Mrs. H. Alexander spent Monday and Tuesday with Mr. and Mrs. Jimmie Hudgens in Lexington.

Mr. and Mrs. Powell Donald's son of Hill Top spent Sunday with Mr. and Mrs. Ovel Donaldson.

**CANE RUN**

Mrs. Oscar Mahla of Cincinnati is spending a few days with her mother, Mrs. John Shrout.

Mrs. Gladys Bromagen and little daughter spent Wednesday afternoon with Mrs. Allen Bromagen and daughter.

Joe Hopkins spent Saturday night and Sunday with Lois Myers.

Mr. and Mrs. Willie Watkins had as guests Sunday afternoon, Mr. and Mrs. Clarence Hopkins, Mr. and Mrs. Earlie Flora and son.

Everett Watkins and family and Mr. and Mrs. Silas Smith and baby spent Saturday night with Mr. and Mrs. Clyde Clark.

Mr. W. J. Smith and family had as Sunday guests, Mr. and Mrs. Earl Wagoner and son, Mr. and Mrs. Jeff Woodall and children, Mr. and Mrs. Ray Wagoner and children, Sterlie Smith and family, Allen Smith and family.

Mr. and Mrs. Bradley Dotson and Mr. and Mrs. Clyde Clark spent Sunday with Willard Dotson and family.

Mrs. Harrison George and children spent Monday with her mother, Mrs. Allen Bromagen.

Lottie Smart of Paris, spent the week end with Mrs. Mike Myers.

Margaret Pryor spent Saturday with Mrs. Lute Woodall and Mrs. Maurice Allen Reid.

Mr. and Mrs. Everett Duncan and children and Mr. and Mrs. Denny Haney and children spent Sunday with Mr. and Mrs. Oliver Vice.

(Mrs. Martin Heflin, Cor.)

The following enjoyed one day recently with Mrs. Clarence Rigg and daughters, Misses Jane and Lillian Allen Rigg, Mrs. Walter Dampier and little son, Jimmy, Mrs. Allen Mason, Mrs. Durward Mason and little granddaughter, Miss Flora Mason, Mrs. Pearl Hill, Mrs. Martin Heflin, Mrs. Vernon Robb and little nephew, Mrs. Claude Berry and daughter, Miss Clara Edith Berry and Mrs. Charles Day.

Mrs. Francis Florence, son and daughter visited Mrs. Martin Heflin one afternoon recently.

To My Customers:

Circumstances have made it desirable to dispose of my Standard Oil Service Station.

Since it would be impossible to contact personally every person who has favored me with their patronage during my stay in business there, I wish to take this means of expressing my sincere appreciation to them. It has been a real privilege to me to have been associated with those motorists who stopped at my station, whether regularly or just once in a while.

Again let me say that serving the public in Carlisle has been most pleasant. Thank you each and every one.

Sincerely,
EVERETT M. SMITH

Half of the Steel In This U. S. Tank Is Scrap Metal From a Junk Pile

COUNTY WILL (name of) GET IN THE SCRAP!

To Make MORE TANKS — and GUNS — and GRENADES — and SHIPS

Kentucky is awake to the seriousness of the scrap metal shortage—and scrap metal is coming in by the tons. From farms, towns, churches, schools, factories all over the state the scrap metal is being rounded up and collected. Counties will win rich prizes—but more important—America will win an all-out victory because we turned our scrap into ships and guns and tanks in time to turn the tide. Comb every inch of your farm or your yard NOW—TODAY for every piece of old iron you can find—and turn it in AT ONCE. Kentucky MUST NOT fall in this, the PEOPLE'S job at home.

Questions That Come Up

Can I Donate My Scrap? Yes, most county salvage chairmen will accept scrap donated by individuals. If you wish to donate your scrap, write to your county salvage chairman on an official salvage receipt.

Who Gets the Money? Proceeds from the sale of scrap which is donated will be used for the armed scrap committee needs designated by local county committees.

How Can I Sell My Scrap? Just contact your farm dealer or your County Salvage Chairman. He will tell you what to do. Or, you can bring it to the nearest local market. He will give you an official receipt for your scrap.

Why Is Scrap Handled Through Junk Dealers? The government requires that all junk must be purchased by licensed junk dealers. The licensed junk dealer will issue a receipt to the salvage committee for the scrap.

Does He Make Big Profits? No. The government has set a price ceiling which it pays for scrap. The government does not give away any of its property for its services.

How Can Mills Use Scrap? The steelmaker need is made by mixing 50% iron ore of which 50% is scrap. Thus the steelmaker needs scrap metal for which he pays a ceiling price.

Kentucky Newspapers Offer

$5,000.00 in PRIZES..Cash or War Bonds

To counties, towns, churches, unions, organizations or the individual that turns in the largest number of pounds of scrap metal between October 15-21.

$1,500 To the County with the highest per capita poundage of scrap.

$750 To the County with the second highest per capita poundage.

$500 To the County with the third highest per capita poundage.

$250.00 TO THE KENTUCKY SCHOOL with highest poundage per capita of students.

$200.00 TO THE KENTUCKY FARM with highest poundage per capita of students.

$250.00 TO THE CHURCH in town with highest poundage per capita of members.

$250.00 TO THE CHURCH in town with largest poundage 2,500 population to 5,000 population.

$250.00 TO THE KENTUCKY WOMEN'S ORGANIZATION with the highest poundage per capita of members.

$350.00 TO THE KENTUCKY TRADE UNION with highest poundage per capita of members.

$200.00 TO THE KENTUCKY BOY SCOUT AND GIRL SCOUT ORGANIZATIONS with highest poundage per capita of members.

$150.00 TO PENAL, CHARITABLE INSTITUTIONAL AND OTHER GROUPS with highest poundage per capita of inmates.

$100.00 TO THE KENTUCKY BOYS' ORGANIZATION with highest poundage.

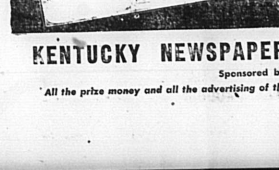
$100.00 TO THE KENTUCKY FARM ORGANIZATION with highest poundage.

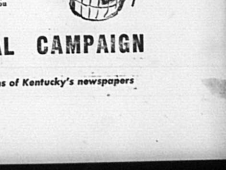
$100.00 TO THE KENTUCKY GIRLS' ORGANIZATION with highest poundage.

NOTE—The county poundage turned in by the various organizations enumerated above in each of the counties may also be counted in each county's total poundage in the competition for county prizes.

SPECIAL NOTE—You should be interested in helping your county win one of the county prizes because the money will be used for civic improvement in your county as designated below:

The County Judge
The County Clerk
The County School Superintendent
The County Chairman and Chairwoman
The County Agent or Agents
The Head of the County Parent-Teacher Association and the Editor or Editors of the County Newspapers





Get a Contest Receipt For Your Scrap . .

Your junk dealer or collection depot will weigh your junk and give you a receipt to be credited to you or whoever you designate in the $5,000 Contest.

KENTUCKY NEWSPAPER SCRAP METAL CAMPAIGN

Sponsored by Kentucky's Newspapers

All the prize money and all the advertising of this campaign are patriotic donations of Kentucky's newspapers
