

THEY WERE EXPENDABLE

WHILE THE WORLD WAS AT WAR, THE UNITED STATES GOVERNMENT WAS AT THE HEAD OF THE PARADE IN THE PRODUCTION OF THE MOST IMPORTANT OF ALL PRODUCTS—MONEY.

CHAPTER I—The first step in the production of money is the printing of the bills. This is done by the Federal Reserve Bank. The bills are printed on a special paper which is made in the United States. The printing process is a complex one, involving many steps and a great deal of machinery. The bills are then distributed to the banks and other financial institutions.

CHAPTER II—The next step in the production of money is the distribution of the bills. This is done by the Federal Reserve Bank. The bills are distributed to the banks and other financial institutions. The banks then use the bills to make loans and other financial transactions. This process is essential to the functioning of the economy.

CHAPTER III—The final step in the production of money is the use of the bills. This is done by the public. The bills are used to buy goods and services. This process is essential to the functioning of the economy. The bills are also used to pay taxes and other obligations.

CHAPTER IV—The production of money is a continuous process. The Federal Reserve Bank must constantly monitor the money supply and adjust it as needed. This is done through various tools, including open market operations and changes in the discount rate.

CHAPTER V—The production of money is a complex process that involves many different steps and a great deal of machinery. It is essential to the functioning of the economy and the well-being of the nation.

SUNDAY INTERNATIONAL SCHOOL LESSON

Lesson for August 29
THE BIRTH OF CHRIST
The birth of Christ is a joyous occasion for all Christians. It is the day when God sent his only son to earth to save us from sin. The birth of Christ is a reminder of God's love for us and his plan of salvation.
