Your Federal Income Tax

Personal Exemption

Every individual is allowed a credit against his net income which varies with his domestic status, that is, whether he is (a) a single person not a married person living with husband or wife, or (c) a head of family. This credit is known as personal exemption, and is shown on line 21 of the return Form 1040. The amount of the personal exemption also varies depending upon the period during which the taxpayer occupied the particular exemption status.

The personal exemption for a single person is $500 for the year; for a married person living with husband or wife, $1200, and for a "head of family," $1200. Personal exemption as head of a family has no effect on liability to file a return.) For Federal income tax purposes, widows, widowers, divorcees, and married persons separated by mutual consent, as well as persons who have never been married, are classed as single persons.

A head of family is defined as "an individual who actually supports and maintains in one household one or more individuals who are closely connected with him by blood relationship, relationship by marriage or by adoption, and

whose right to exercise family control and provide for those dependent individuals is based upon some moral or legal obligation." A single person, or a married person not living with husband or wife, may, therefore, enjoy a head of family exemption under certain conditions.

Taxpayers using a Simplified Return (which is permitted if the gross income for the year is $3000 or less and derived solely from earnings from employment and not from dividends, interest and annuities) obtained personal exemption based on their status as of July 1 of the year. Thus, a taxpayer married and living with husband or wife on July 1 is entitled to $1200 personal exemption on Form 1040A, if he were a widower on July 1, his exemption would be $500, irrespective of the date on which he became a widower. The amount of the exemption is not deductible from the income but is reflected in the amount of tax shown in the table on the reverse side of the form.

Taxpayers using return Form 1040 obtain personal exemption proportionate with the number of months during which the particular status is held. Thus, for a person who married on July 1, who was not a head of family prior to his marriage, the personal exemption would be $850 ($250 for the six months as a married man, plus $600 for the six months as a married man). In this example it is assumed that the wife has no income.

Married persons must, however, file joint returns, even though one has no income, in order to effect a joint return a couple married during the year may claim the exemption amounting to the ex-

exemption to which they would be entitled for the period of married status, plus the amount of their individual exemptions prior to their marriage. In the example given the total exemption in a joint return would be $1100 ($250 for each spouse for six months plus $600 for six months married status).

If a husband and wife living together both have income and file separate returns on Form 1040, the personal exemption applicable to a married person may be taken in the return of either or divided between them in any way as they may agree, but the total personal exemption taken in the two separate returns may not exceed $1200.

THIS IS YOU, MR. AMERICAN!

MR. JOHN AMERICAN, this is a picture of you. The features may not be quite yours. You may not be quite so bald, or stout, or thin . . . but the manhood, the sound good sense, the heritage of character and independence and self-reliance are yours. They are yours because they are typically American' . . . the products of our way of life, our system of free enterprise.

Look at yourself again. You are the most important man in the world today. And your children are fighting and winning the greatest war in history. You are winning that war for decency and justice . . . so that all the world may have the opportunity to adopt those principles of freedom which have made this nation great. Your sons are giving their lives and you are spending your resources to keep our American Way of Life.

Some people want to destroy our way, our system of free enterprise. They say democracy, with government control of industry, makes for greater efficiency. Does it?

It took dictator-controlled Germany nine years to build enough plants and equipment to fight this war; it took autocratic Japan twenty-five years; and even heroic Russia twenty years. American industry, under free enterprise, has done it in two years . . . built and tooled the plants to turn out a thousand times the war materials we could make before Pearl Harbor.

You, MR. JOHN AMERICAN, have the power to maintain this system that pays higher wages, provides better living conditions and more opportunities than any other system on earth has ever produced.

Old Things Of Interest Will Be Displayed Here

Hopkins Drug Store Window To Hold Many Such Old Articles

Old Things of Interest will be on display here in Carlisle in one of the front display windows at Hopkins Drug Store. The Carlisle Mercury is here asking all who wish to bring any "Old" article they may have such as has been described in the column in this paper under the heading of "Old Things of Interest."

Any small article will be acceptable for display in the window and will, in-so-far as is possible be protected from being taken by some unscrupulous person, but neither Hopkins Drug Store nor The Carlisle Mercury will be responsible for any article so lost. It is, however, believed that the articles will be perfectly safe in the window when mentioned.

Please do not take any old article to the drug store, but bring them to The Carlisle Mercury office where they, each and every one, may be placed and registered before being placed in the window.

It is hoped that those things placed in the window will not all be left for a period of one week, then the display will be changed, putting other old things in, and so on as long as Mr. Mercer is able to keep the old things coming in for display.

Let us have your old things for display. Thank you.

Victory Gardens For National Food Supply Drive

War Service Branch Committee Desired To Be Organized

The new program for the War Service Branch of the Victory Gardens Program. A Victory Gardens Committee should be organized immediately in our War Service Branch with the idea of cooperating with the Agricultural Agencies in your county and with other local organizations which may be interested in the nation-wide drive for home gardening.

All Air Raid Wardens are to contact all the people in their blocks and urge them to raise Victory Gardens; and to report to Chief Air Raid Warden Supt. Pfanstiel not later than the 10th of March. The names of those who plan to cooperate in this National Food Production Drive should be obtained and given to Chief Warden Jones at the earliest possible moment.

Farm gardens will be developed through the Agriculture Extension Services with the assistance of the Neighborhood Leaders, Town and city Victory Gardens may well be developed under the Block Leaders Organization. These gardens need strong community committees to make arrangements for community gardens, school gardens, instructions, supervision and counsel of gardeners. In addition, community plans for preservation and use of surplus products may well be a part of the program.

The Block Leaders may be enlisted for the purpose of informing their families about the Victory Gardens plans.

Several pamphlets are available for the use of the Victory Gardens Committees, such as:—"U. S. Government Campaign to Promote the Production, Storing, and Proper Use of Food" prepared by the Bureau of Campaigns of the Office of War Information

"1943 Victory Garden Programs" and "Victory Gardens" published by the Department of Agriculture.

Nicholas County Chapter Red Cross Ahead Schedule

All Members Putting Forth Special Efforts And Producing Results

That the Nicholas County Chapter of American Red Cross is six months ahead of schedule on the production of articles for which doing will be good news to every citizen of Nicholas County. This is in the production department.

Mrs. Leslie Bantin has made 110 pairs of wool pants for boys. Mrs. Claude Bantin has knitted 105 sweaters, and, think of this, which has been accomplished by one of not only Nicholas county's most lovable women, but one of the finest characters to be found anywhere. Mrs. Jamie Parker, mother of Mrs. I. B. Rose, who is past 89 years young, and who has knitted sixteen sweaters. Each one of these ladies goes the best wishes of The Mercury. They deserve credit for the splendid work they have done. Every member of the Red Cross is deserving of credit for the work they are doing and say those who do not understand the wide workings of this most excellent institution.

Found giving credit where credit is to each and every member making an effort to put the Red Cross over in its undertakings.

All women are urged to go to the surgical dressing room and give the same splendid assistance in making bandages as in making those things above.

Miss Carrie Bantin has made 115 pairs of gloves for soldiers. Congratulations Miss Carrie.

The following letter from Pvt. C. Geo. W. Pferdcert, South Post Fort Myers, Virginia, dated Saturday, January 23rd, 1943, was received by the Nicholas County Chapter Red Cross and is self-explanatory.

My Dear Friends.

I take this means to express the appreciation of our men here for the fine and wearing apparel that have been received from the Red Cross recently.

I feel I should ask you for the share we received from the Carlisle Nicholas County office—personally I should like to commend you for the splendid work you are doing with Scripture that was found in the many goods and having Carlisle, Ky., on it.

Pvt. Scripture (Eph. 4: 31-32) was indeed a fine thought, and expressive of the good work the Red Cross is endeavoring to do. Thank you and keep up the good work.

Sincerely in Christ,
Geo. W. Pferdcert

RED, WHITE AND BLUE

Red, from the leaves of our Autumn woods
On our hillside and northern hills;
Red, to show that patriot blood
Is beating now in a hurrying flood
In the hearts of American men.

White, from the fields of stainless drift
In forest and on plain;
White, to show that as pure as snow
We believe the Christ light yet shall glow
In the souls of American men.

Blue, from the arch of the winter sky
O'er our fatherland outspread;
Blue, to show that as wide as heaven,
Shall justice to all mankind be given,
At the hands of American men.

Red, White and Blue! and the light of stars
Through our holy color shines
Love, Truth and Justice, virtues three,
That shall bless the land of liberty,
In the homes of American men.

Shoe Rationing Started Tuesday, Making History

Each Person Will Be Allowed Three Pairs, Cut May Come Later

Shoe rationing started Tuesday of this week and in starting made new history for the American people.

Each person will be allowed three pairs per year unless a cut comes "reducing the number." Price Administrator Leon Henderson says the cut may come, but only when you need shoes. Stamp No. 17 in War Ration Book No. 1, the sugar-coffee book will be good for a pair of shoes, of course, if the proper amount of cash or good credit, at the dealer may choose to permit, comes along with the No. 17.

A Red Cross home nursing class for women No. 17, is June 15th. Firms handling shoes, no doubt, will have any information desired by purchasers as to the different articles in the "Shoe Family" which may be purchased without a coupon, house slipper and infants' soft shoes.

It has been disclosed that during the first years 3.7 was the average pairs of shoes worn during a year's time. At the rate of 3.7 it can be seen that only 7 has been deducted.

Rationing will cut down on "unnecessary demand." "For the overwhelming majority of the people there should be no change in normal buying habits. They still will be able to put off buying shoes for a week, a month or two months with no fear that the shoes will not be available when wanted. The shoes will be there.

"Whatever fears may have existed that serious shoe shortages would develop and people be unable to get the shoes they needed can now be forgotten."

Victory Corps Activities In The Carlisle School

Under Supervision of Principal Is Progressing Along In Splendid Way

Victory Corps activities here in Carlisle under the supervision of Principal Ruth Lambert Evans is progressing along in a splendid way.

A paragraph from a letter from the State Department in Frankfort to Miss Evans, under date of February: "I want to congratulate you on the splendid work that the Victory Corps activities are making towards our all-out effort. It is my opinion that the organization of High School Victory Corps units is a real opportunity to render a distinct service to the nation at this time."

The letter was signed by J. W. Booker, Supt Public Instruction.

The Victory Corps is a splendid organization working with and for the United States in promoting a morale which could not be done in any other manner.

President Roosevelt has said: "When our enemies challenge our country to stand up and fight, they challenge each and every one of us, and each and every one of us has accepted the challenge for himself and for the Nation." The president was exactly right.

Classes in the Victory Corps are young men members of the State Militia, the leadership coming under the Board of Officers of Supt. Pfanstiel with Mr. Pfanstiel in command.

Members of the WAAMs teach the girls in the Victory Corps. Nonetheless members are active in the militia or drills.

From time to time The Mercury will print other accounts of the actions of the Victory Corps.
