Dear Fellow Democrats:

When I first considered making the race for the state legislature I promised myself that I would keep both the campaign and my services on as high a plane as possible. I first contacted the present representative of Bourbon County to inquire as to his making the race. After being informed that Bourbon County's speaker of the House would not make the race and after noting that it was Nicholas County's turn to supply the candidate under the old or a recent rotation, we sought a rotation with Bourbon County. That rotation, which is a gentleman's agreement, was secured through the Democratic Chairmen of the two counties. However, a Bourbon County candidate filed.

I make my appeal to you loyal Democrats to help us enforce that agreement through your actions at the polls this Saturday.

Due to the war with curtailment of travel and labor shortages, I have been unable to see as many of you voters as I would liked to have seen. I want you to know that my interests have been in you and I wish it were possible for me to talk to each of you personally.

I make only one pledge—to serve you as I think you would want to be served. All of my decisions will rest upon what I would believe to be your desires.

As Nicholas County's only candidate, I appeal to you and trust that through your vote plus the vote of the good people of Bourbon County, we may be ably served in the next legislature.

Your humble servant,

WILLIAM D. (Billy) SMART

70-ACRE FARM SOLD

The Scott-Kendall Sales Company sold the 70-acre farm of James Parsons near Barterville to Harmon Goins. The price was not made public. Mr. Gaurece plans to move on the property and Mr. and Mrs. Parsons will move to Carlisle.

FATHER SPEAKS FOR SON

Mr. Albert Wilson of Garrard county, made a short talk Saturday afternoon at the court house in behalf of his son, Holman R. Wilson, candidate for State Treasurer, in the August Primary. Mr. Wilson is the only family formerly lived here.

ALMOST as much a part of most Southern villages as the Court House, itself, is the bulk storage plant at the edge of town bearing the old familiar sign: STANDARD OIL COMPANY. Wherever people congregate and work and live, there you will find the tanks, the office and the yard of an Agent of this Company.

The Agent is a part of the community. He is neighbor, friend and fellow-townsman. And to the community HE is the Standard Oil Company.

He lives "on the ground." His feet are on the ground. And that may explain how it is that Standard Oil can and does keep so close to the interests of every locality it serves. Our aims and actions are deep-rooted in the very soil of every Southern County.

The people of the South *make* the South. We are proud to be one of them by reason of our sixty genial years in their midst.
