Of Interest to Farmers of Nicholas County

BOURBON MIXTURE

By John S. Gardner, Kentucky College of Agriculture and Home Economics
Many days, with hot and dry weather, make an ideal "light season" for the tobacco grower. The light is the ideal time that makes the leaves of tobacco grow fast and thick. The leaves are green and healthy, and the plants are vigorous. The plants are growing fast and thick, and the leaves are green and healthy. Telephone Exchange on Guadalcanal
Marine communication men built under fire. And it was well over a thousand miles of wire. Telephone lines here at home are life-lines and production lines, too, in wartime. To help make way for vital war calls, we are asking you to make only the longest necessary long distance calls, especially avoiding calls to buy war centers. When you must call, please be brief. Thanks for your help.
