PUBLIC AUCTION

Of 89 Acre Farm On

SATURDAY, NOVEMBER 27 At 2 O'Clock P. M.

We will offer for sale at the court house in Carlisle the farm belonging to the estate of Mrs. Alice Gaunce, deceased.

The farm is located on the Sugar Creek Road, 2 miles East of the Bone Hill church and 9 miles North of Highway No. 68.

This is a good farmers' region and this farm produces both quality and quantity crops. Convenient to churches and school. The farm contains 89 acres of strong limestone bluegrass soil, practically all in grass. Good fence and ample water supply. Tobacco base 4 acres.

Improvements consist of 8-room home, tobacco barn and other necessary outbuildings.

Prospective buyers will be shown the farm by Mr. Joe Lacy who also lives thereon, or by Mr. W. S. Gaunce. Possession given on or before March 1st, 1944. Terms: Reasonable.

FARMS FOR SALE

This week I will try and answer some questions in regard to cut prices on farm implements. This farm wants to be of service to the farmer, or to anyone who plans a public auction. The following implements have a ceiling price—1 Combine, 2 Corn Pickers, 3 Corn Binders, 4 Farm Tractors, 5 Mix Balers Motor, or 6 Hay Loaders, 7 Manure Spreaders, 8 Side Delivery Rakes. Under this regulation an item listed above is sold less than a year from the time when it was sold as a new machine the ceiling price is 85% of the base price. The term "base price" is defined as the last published suggested retail price of the manufacturer for the same model. In those cases where no suggested retail price exists, the base price is the price for which the same or nearest equivalent machinery would be sold now in the locality less the carload freight from the factory. Where one of these items has been reconditioned and guaranteed by a dealer he may charge up to 90% of the base price, regardless of the age of the machine and if he has to transport it farther than 100 miles from the point where he purchased it he may add the actual shipping costs to his selling price, exceeding, if necessary, the 95% limit.

Other questions you would like to ask just stop by the office and we will be glad to answer them for you.

KEY MEN WILL BE RELEASED – WILLIS

The Men Who Made The Machine "Tick"—Men Who Make Machine Rules—Must Go

Key men in the Democratic setup of government at Frankfort will be replaced with Republicans as quickly as possible after his inauguration December 7, but he will try to keep intact the present working personnel for some time, Gov.-elect Simeon S. Willis said.

"The men who made the machine tick the most, are the men who made the machine policy—all of them must go," he declared. "But there is no reason for the people to become jittery. I want the transition from one Administration to the next to be calm and orderly."

With reference to the published statement of Clifford Sensing, back tax collector, that he is willing to resign when the Republicans assume office, Willis said he believes back taxes ought to be collected by the State itself.

DONATION DAY THANKS

The management of the Johnson Memorial Hospital wishes to thank all who contributed in any way to the successful "Donation Day" held over Thanksgiving.

Checks offering, $66.10; cash donations, $16.65. Total $82.95.

WAR RATION BOOK 3 ISSUED BY LOCAL BOARDS

Beginning December 15 all issuance of War Ration Book 3 will be through local War Price and Rationing Boards rather than through State Control Centers, it is announced from the Louisville District Office of Price Administration.

After December 7 no application for Book 3 is to be forwarded to the state authorities, but the local board will have a supply of Book 3 and will be authorized to issue the books on and after December 15.

FISCAL COURT IN SESSION

The Nicholas County Fiscal Court met in regular session Wednesday afternoon to transact routine business.

Payments To Aged May Be Reduced

Old-age assistance checks will have to be reduced, State Welfare Commissioner W. A. Frost announced, if Gov. Keen Johnson's $200,000 emergency grant is permanently blocked.

Transfer of the money from the governor's general emergency fund was stopped by a temporary restraining order granted to Attorney General Hubert Meredith in circuit court.

Meredith's petition, on which Circuit Clerk Kelly C. Scitter issued the soop-order, claimed the relief executive lacked authority to supplement the annual $4,250,000 legislative appropriation.

Commissioner Frost issued a statement declaring that keeping down the old-age assistance rolls for new applicants as required by a previous court order obtained by the attorney general had increased the number of beneficiaries, and that unless the additional $200,000 were obtained the state could not match federal grants for public assistance.

With Governor Johnson's term ending next Tuesday, there have been intimations that 20 days was too short to fight Meredith's restraining order through to the Court of Appeals. Commissioner Frost's statement gave no estimate of what the proposed cut would be.

STATE DRAFT CALL BOOSTED 10 PER CENT

An increase in the rejection of fathers during the last several days and other factors have led to a 10 per cent increase in the Kentucky draft quota for June, it is said.

The draft officials said they had no definite figures on the number of father rejections but that "they are running high" on some boards. Previous reports, when fathers first were rejected under the new policy, indicated that rejections were about even with those of unmarried men.

Only about 19 per cent of the Kentuckians inducted during November were fathers. The percentage in December is said to be somewhat higher" and probably will go above 40 per cent in January.

The increase in the January quota is a direct consequence of the failure of the Fifth Service Command, in which Kentucky is located to meet its quota in October. Only 47 per cent of the quota was attained, the largest failure since the start of Selective Service officials report.

Another reason assigned for the increase in December and January is that Kentucky was that the Selective Service has temporarily held up the induction of men certified by the United States Employment Service because of the coal crises. Draft officials advanced another reason in the fact that there was an "inventory" period in September prior to the time fathers were first inducted.

DEMOCRATS WILL BE ASKED BY WILLIS TO SERVE

Democrats as well as Republicans will be asked to serve the state in the interest of a non-partisan administration standards, Gov.-Elect Simeon S. Willis announced in a letter read at a meeting sponsored by the Kentucky Merchants' Association.

M. Purdy, Owensboro, president of the association, said the letter was in answer to an appeal sent by the merchants to Republican administrative officers-elect and Democratic state legislative officers asking them to co-operate with each other in serving the interests of the state as a whole.

A temporary organization, named the Committee of Kentucky, was formed at the meeting by representatives of various state civic, commercial and labor associations who expressed approval of the appeal to Republican-Democratic co-operation.

STAMPS IN EVERY STOCKING

"A stamp in every stocking"—that's what the Treasury Department wants for Christmas.

To encourage the giving of war stamps, many ideas for utilizing them in gifts and decorations have been suggested—war stamps affixed to a cellophane bag containing a small gift; war stamp Santa Claus and small Christmas stockings containing stamps; a baby's rattle with stamps tied on with ribbons, and children's toys, with stamps attached.

The stamps may also be used as decoration on wreaths, fastened to candles, and on Christmas cards.

CHRISTMAS SEAL SALE STARTED NOVEMBER 22

The Nicholas County Tuberculosis Association opened the Christmas Seal Sale drive November 22. Letters have been mailed to workers in the county at large. Members of Carlisle Girl Scouts will sell seals at the local post office and see personally those who are not on the mailing list for their contributions.

Mr. Paul Garrett, chairman, urges all to buy seals this year. Since tuberculosis is always on the increase a greater opportunity is afforded at this time to help keep the home protected from this enemy. Over fifty per cent of the money remains here in Nicholas county to help fight this evil. The committee urges that you come on now, and send in your dollars.

SUPPORT TO KENTUCKY HEMP GROWERS ELIMINATED

The Commodity Credit Corporation has withdrawn its support of hemp production in Kentucky, M. D. Rouse, state chairman of the Agricultural Administration, announced. Production of the war-vital crop therefore will be all but eliminated in the state, Rouse said. Hemp fiber usually will be produced by the North Central States in the future, the state A. A. A. chairman asserted.

PLANS COMPLETED FOR WILLIS INAUGURATION

Although gas and tire rationing may threaten some of the floats and enthusiastic marching delegations from out in the state, the addition of the martial note so fitting in these war times, is expected to provide a colorful display for the parade preceding the inauguration of Governor-elect Simeon S. Willis at Frankfort next Tuesday, Dec. 7.

It has been definitely ascertained that representative units from Fort Knox, including musical armored and infantry outfits, will accompany the commanding general and his staff to Frankfort for participation in the events incident to the inauguration.

In addition there will be several units of the Kentucky Active Militia swinging along in the line of march to assure Kentucky that if the militiary tradition always present at the inauguration of Governors of this state, is not injured that delegations will be there in the form of a strong escort. Reports continue to arrive from all parts of the state declaring that organizing plans are planning to be in Frankfort for the ceremony and celebration.

Although the Inaugural Committee, in deference to the wishes of the Governor-elect and in recognition that inauguration day falls exactly on the anniversary of Pearl Harbor, has eliminated the customary inaugural ball, with its ondancing in the corridors of the capitol, plans have virtually been completed for an informal reception on the evening of inauguration day, at which time Governor Willis and his official family will be present in the state reception room to greet their many friends from all over Kentucky.

STILL SEEK 1918 SOLDIER

Soldiers stationed at Camp Atterbury, Ind., were asked recently if any of their buddies happened to be named Frank Roe. They were informed that postal officials at Wichita, Kansas, have been looking for Roe—locking for he was in the service last war. They even sent along a description to help him his Army discharge papers issued Dec. 24, 1918.

Fourth War Loan Starts January 18

Secretary Morgenthau has announced that the Fourth War Loan Drive with a goal of $14,000,000,000 will begin January 18, 1944, and will continue through February 15.

The three previous drives raised more than $50,000,000,000 and exceeded the quotas in every instance.

The Treasury head said state war financing committees had been strengthened and expanded and millions of volunteer salesmen will be pressed into service to solicit individual investor in homes and plants throughout the nation.

Major emphasis will be placed on the $5,000,000,000 quota for individuals. During the period from Jan 18 to Feb. 1 only sales to the Treasury will be reported to the Treasury. Sales to other non-banking investors will be included in the reports beginning Feb 1.

Morgenthau explained that this arrangement will not preclude the acceptance of subscriptions from other non-banking investors at any time.

FARMERS WILL BE ASSISTED WITH INCOME TAX RETURNS

It is announced by the Internal Revenue Department that White F. Varden, zone deputy collector, will be at the Post Office building at Carlisle, on December 6 and 7, to assist farmers in filing their December 15th declaration returns. The law requires that farmers file this declaration by December 15.

FUTURE TIRES

The techniques of self-sealing gasoline tanks and bullet-proof tires suggest the puncture-proof tire of the future, according to a report in Industrial and Engineering Chemistry. Test fires give promise of lasting for 100,000 miles. There is no apparent difficulty in building the tire as an integral part of the wheel.

KILL ITALIAN MULES

An American division in the Italian mountains became the envy of others when it received 300 large mules to pack supplies and ammunition. As soon as the Germans realized that American infantrymen were using the animals they began a systematic slaughter of all the Italian mules they could find.

D. TALBOTT LOSES IN 4TH BY 12,600 VOTES TO CARRIER

Special Election Held Tuesday To Select Successor To The Late Congressman E. W. Creal

TALBOTT LEADS 2 COUNTIES

The special election held Tuesday in the Fourth Kentucky Legislative district in Western Kentucky to elect a successor to the late Representative E. W. Creal, Hodgenville Democrat, who died recently, resulted in the election of Chester O. Carter, Lexington Republican, of J. Dan Talbott, Bardstown Democrat.

While the election did not create any special interest in this section of the state, the outcome was watched by political leaders here with much interest. Complete but unofficial, returns from all of the 442 precincts in the district Carrier 29,834 votes to 17,234 for Talbott.

Talbott carried only two counties, his home county of Nelson and Meade. Talbott's vote in Nelson was 2,202 to 1,653 for Carrier. Talbott carried Meade by only five votes, 679 to 674 for Carrier.

Carrier's largest margins were piled up in Hart, Taylor and Mason Grayson county.

Carrier's triumph in the special election gave Kentucky its second Republican congressman. For a number of years Republicans in Republican victory in which Simeon S. Willis, Ashland, former state Court of Appeals judge, was elected governor and all of the Republican candidates except the nominee for secretary of state were sent to the Capitol.

Voters from 19 counties participated in the special election, which was called by Gov. Keen Johnson to fill the vacancy created by the death of Representative E. W. Creal, who had represented the Fourth district since 1935.

Both Carrier and Talbott were selected as nominees by the district committees of their respective parties at conventions.

Carrier has been county judge of Grayson county for the last 20 years and served as chairman of the district Republican committee.

Talbott has been active in the state Democratic organization for a number of years and served as Commissioner of the state Finance Department under Gov. A. B. Chandler, now United States senator and during the first three years of the Johnson administration. He served recently as assistant state director of the War Manpower Commission in Kentucky.

Neither nominee conducted a lengthy speaking campaign, but both endorsed their party workers and made several informal talks. Their announced platforms differed little in main points regarding post-war plans. Carrier will serve in Congress until January, 1945.

RITCHIE ENTERS NAVY

Raymond Chester Ritchie, 17, of Carlisle, enlisted in the Navy Wednesday at the recruiting station in Lexington

An old man is always one older than you.

SPECIAL NOTICE TO PARENTS AND RELATIVES OF SOLDIERS

On and after January 1, 1944, subscription rates to all soldiers will be the same as all others —$2.00 in Kentucky and $2.50 outside of Kentucky. This will increase to soldiers over prevailing rates is made necessary due to increased costs in postal rates; new higher zone postal rates; numerous changes of addresses, and other costs in The Mercury circulation department. All subscriptions, new and renewals, for soldiers will be accepted at the prevailing rate of $1.75 per year up to and including December 31, 1943, after which the rate of $2.00 in Kentucky and $2.50 all outside Kentucky will prevail. No subscriptions accepted for soldiers for less than six months.

TRUCK PURCHASERS WARNED

The Office of Defense Transportation has warned all persons contemplating the purchase of either new or used trucks for the purpose of inaugurating new operations or extending the area of present operations to contact the Lexington district ODT office before taking such steps.

The warning came from Wm. N. McGee, District ODT Manager who stated that under ODT regulations inauguration of new operations or extension of present operations must first have the approval of ODT before they can be put into effect.

Mr. McGee said that all protective truck buyers would save themselves time and money if they contacted ODT first for approval.

Many buyers in the Lexington district have already met with disappointment when, after purchasing trucks, they learned ODT would not approve of their proposed operations.

"Trucks today," said Mr. McGee, "are precious. The ODT is endeavoring to make sure that they are used only in the successful prosecution of the war effort or in an essential civilian activity. Considering the alarming critical situation facing the nation's motor transportation today, it is probable that many applications for new operations or extension of present operations will have to be denied.

"Stringent review of such applications is necessary in order to insure the continuation of our essential transportation for the duration."

VOTED AT SAME PLACE ALL LIFE

Hon. Will Melhohan, former representative in Kentucky General Assembly from Nicholas county, has been interested in politics all his life. He is an occasional caller at the Mercury office and has been a friend to The Mercury all during. He stated recently that he was 76 years old and had voted in the same precinct (Englewood) all his life and had reached his majority and had served as clerk of election 25 years.

Leaf Arrival At Lexington

Only approximately 2,000,000 pounds of burley tobacco was on Lexington warehouse floors Thursday as compared to a normal 15,000,000 pounds hauled in for opening sales. Lexington warehouses frequently sell more than 2,000,000 pounds in one day.

Retarded in tobacco stripping operations by what one weather observer says is the wettest November in history, some growers were resorting to artificial means of creating dampness in their stripping rooms.

However, enough tobacco was on floors to assure opening of operations as scheduled on auction floors next Monday and elsewhere on Tuesday.

BIG FOUR TO MEET IN IRAN?

German and German-controlled radios broadcast today reports that President Roosevelt, Prime Minister Churchill and Generalissimo Chiang Kai-shek had conferred at Cairo and were now on their way to meet Marshal Josef Stalin.

One German broadcast suggested that the President and the Prime Minister might already be conferring with Marshal Stalin, and Radio Ankara of neutral Turkey quoted unconfirmed reports that the Allied Big Four already had met at Cairo.

ARMY DISCHARGES

About 550,000 officers and enlisted men were honorably discharged from the Army between Dec. 7, 1941, and Aug. 31, 1943, the War Department revealed. Approximately 200,000 were men over 38 who were discharged to take essential war jobs; most of the others were returned to civilian life because of mental or physical disabilities.

MEMORIAL TABLET RECEIVED BY ARMORY

A Bronze Memorial Tablet, which has been received at the Carlisle Armory. The wording on it gives the names of the persons of the State Administration who were instrumental in having the Armory erected here. The tablet will be placed on the wall of the hall leading to the drill hall.

PFC. SHAW GRADUATES AS AIRPLANE MECHANIC

Keesler Field, Biloxi, Miss., Dec. 3—A new role in Democracy's fight against the Axis today awaited Pfc. Samuel L. Shaw, son of Mrs. G. C. Gaunce, Route 3, Carlisle, who was graduated as an airplane mechanic today from the B-24 Liberator bomber mechanic's school at this unit of the Army Air Forces Training Command.

Pvt. Shaw, with approximately 17 weeks of intensive training behind him, is now ready either for assignment to line duty wherever the big Liberators are operating, or to a flexible gunnery or factory school.

"On the line" it will be his duty, not to fly them, but to keep them in good flying condition so they will perform effectively. Before the big bombers take off he will make certain that the engines are running smoothly, that the electrical and fuel systems are functioning properly, that the landing gear is working correctly —that the plane is in perfect mechanical condition.

When the planes return he will help mend broken and twisted parts, change a damaged engine, patch up bullet holes and put the bombers back in service as good as new.

Army Air Forces experts long have recognized the importance of the ground crew men who number 10 or 20 to 1, with the proven theory that a bomber is no better in action than its mechanics on the ground.

WOMEN NEEDED FOR NAVY OFFICERS

The greatly increased number of enlisted girls in WAVES in the U. S. Navy has brought on an increase demand for qualified women to become "officers in the WAVES. Regulations require that applicants have at least two years of college supplemented by two years of experience in a business or professional field. Other requirements are the same as for enlisted women.

Ensign Margaret Scully of the WAVES is in Room 430 of the Post Office Building, Lexington, Kentucky each Friday to interview applicants for this branch of service. This office is open daily from 8:00 a.m. to 6.00 p. m. operated by other Navy Personnel. Appointments for interviews may be obtained through Mrs. Berthis Westfall, local Civilian Recruiter or through J. B. Stratton, Jr., Spl. 1c. USNR who visits this town each week.

COAL PRICE INCREASE NOT AUTHORIZED YET

Orders authorizing increased prices of coal, a move approved by the Office of Economic Stabilization Director Fred Vinson, have not been received by the Louisville district office of Price Administration, it was announced Tuesday.

S. J. Years, district price specialist, stated that mines and retail dealers were without authority to increase prices until the price ceilings have been announced by the OPA.

Mr. Years said reports had been received that shipments and deliveries were being withheld by some mines and dealers until the new maximum coal prices are established.

BRICKER TO ATTEND WILLIS' INAUGURAL

Inaugural ceremonies at Frankfort Dec. 7 for Gov.-Elect Simeon S. Willis will be attended by Gov. John W. Bricker of Ohio one of his representatives said.

Bricker, who has announced his candidacy for the Republican nomination for president in 1944, will be accompanied to Kentucky by Mrs. Bricker and was expected to arrive at Frankfort shortly before Willis is sworn into office.

Gov. Thomas E. Dewey of New York, Wendell Willkie and governors of states bordering Kentucky have been invited to the ceremonies.

LOCAL GIRL IN STUDENT RECITAL AT BEREA? COLLEGE

Miss Frances Henry, sophomore at Berea College, Gainesville, Ga., and daughter of Mr. and Mrs. Frank C. Henry, Carlisle, was presented in a student recital in the Berea? auditorium Tuesday evening, November 23, when she sang "Sweet Song of Long Ago" and "Let My Songs Fill Your Heart" by Charles.

The recital was under the direction of Dr. Enrico Leide head of the Berea? Conservatory.

FOOD LOCKER FOR CARLISLE PEOPLE

Applications Being Taken This Week For Installation Soon. Maysville Firm Promoters

Carlisle is to have a frozen food locker if all plans now being put forward are completed. If you need a locker, see one of the solicitors and sign up. There is no other way to get one. All applications will be on file at the First National Bank.

It is claimed that 80 per cent. less food is required than by canning or preserving and you avoid the chance of failure. It is also estimated that a family makes $100 annually by the use of the frozen locker plan.

Authorities have agreed that food retains much higher nutritive value when quick frozen and properly stored than when home-canned or preserved. You can restock as your needs require.

The First National Bank and Trust Company Agents Office have been designated as places to sign for a locker. The cost per door type 412 the year and drawer type 813 the year. The local committee is composed of W. T. Straw, E. M. Smith, C. S. Whaley, S. P. Hinkle, G. Irvin Wise, W. E. Piper, and Geo. B. Carter.

The plant will be installed by C. L. Manis and Son, Maysville. This firm has installed a large number of the type locker that is proposed for Carlisle and are experts in that line. See adv. on page 6 this issue.

RECENT SALES

Mrs. Eva Asbury sold her home on West Chestnut street, known as the home of the late Jno. G. Powell, to Mr. and Mrs. Guy Neal.

Mrs. B. D. Knox has purchased from Mrs. James Higgins, her home on West Main street, known as one of the Tapeh homes.

Both sales were January 1st.

The Scott-Kendall Sales Company sold at public auction Saturday at 2 o'clock at the court house, the 89-acre farm of the late Mrs. Alice Gaunce. W. S. Gaunce, agent for heirs, to Frazier Eacheson of Hog Jaw for $8,100 per acre.

The Westfall Realty Company reports the following sales:

The farm of F. Sugg, located near Hooktown, contsiaing 43 acres to W. J. Roe of Fayette county.

They also sold for A. R. Shrout the farm he recently purchased from O. A. Berry near Jackstown, to Mrs. Sophia McCabe.

ELEVENTH SCHOOL ENROLLS IN JR. RED CROSS

The Moorefield school has enrolled in the Junior Red Cross. The 145 pupils in the school gave $5.00. This makes eleven schools to enroll this year.

The Honor Society of the Carlisle High school who are Junior Red Cross members, has completed fifteen covers for school stories to be sent to the School for the Blind at Louisville. They will be mailed this week and distributed before Christmas.

Old Clothes For European Relief

The drive to collect old clothing to be sent to Europe for relief of the destitute is on and will close December 11. Those in charge of the collection of used and discarded clothing request that such articles of wearing apparel be brought to any church in Carlisle, the schools, or the same at the Kentucky Utilities office.

Clothing that the owner expects to use or wear are not desired. The committee has stated that such articles as shoes, hats, caps, leather gloves, or rubber goods are not wanted.

This campaign is for a good cause and it is believed that there will be a good response to the call.

PRYING GOVERNMENT

During the recent registration and for some rationing a typical Virginia mountaineer was laboriously reading the portion of the form which stated: Registered by Self, Wife, Husband, Father, etc., or Exception" the old fellow was obviously disturbed. "Th' government shore does pry into a feller's business," he complained. "Course we're expectin' but I didn't think I'd have to register for that one."
