KENTUCKY PULPWOOD

(Mt. Sterling Advocate)

Although it is not generally known, there are many kinds of trees in Montgomery and adjoining counties available for use as pulpwood. Pulpwood is a term needed by industry and the federal government in the present time.

Wood suitable for pulpwood include poplar, willow, cottonwood, buckeye, quaking aspen, soft maple, cucumber, box elder, linn (basswood), sycamore and gum.

In preparing for market wood must be sawed from normal trees and peeled free of all bark. It must be reasonably straight, with knots trimmed close to stick. All forks should be cut off and wood must be kept clean as possible. In order for it to be merchantable it must be less than three inches in diameter at small end and not over twelve inches at large end. Billets are usually cut 4 feet long.

At present time there are applications for the cutting of pulpwood by quota, which will be carried on the AAA organization.

We, Montgomery County farmers, have a good opportunity to get a good deal of extra money for our timber. It must be done in a way that will not destroy the value of our timber for future use. Many farmers have been approached by agents who have no authority to act for the government. Some of these agents have been very high pressure salesmen and have made many promises that they have no authority to make. Don't be misled by these agents. Don't sign any contracts with them. Don't let them cut your timber. Don't let them tell you about what they can do. Don't let them tell you about what they can do. Don't let them tell you about what they can do. Don't let them tell you about what they can do.

WHAT NEXT?

The OPA has founded a scheme which grants free postage under the franking law to any soldier wishing to report price violations. In effect, the government now subsidizes snoopers.

Reports are coming in that "unfounded complaints" forms have been sent to OPA regional offices and to local boards distributed by various labor organizations such as labor unions, political parties, consumers' groups and the like. Some of these forms are official. They look like your neighborhood grocer. You have to go to look around. Whether Charlie, Bill, Mary or Sue is behind the counter doesn't matter. It makes all the difference in the world to the grocer. Some of these forms are not official. They look like your neighborhood grocer. You have to go to look around. Whether Charlie, Bill, Mary or Sue is behind the counter doesn't matter. It makes all the difference in the world to the grocer. Some of these forms are
