TIBBITS OF Kentucky Folklore

By Dr. Gordon Wilson Western Ky. State Teachers College

At a weekend party last night we were illustrated several phases of barriers and how they have largely disappeared. Two of us were middle-aged or over in his early thirties, but had lived as a boy in a remote country where came up of natural barriers, like rivers or swamp hills, the subject of one of the folk tales we heard.

At this point we up some measure of Fable, as what doesn't? We are so used to getting a community, as I may recall it. That our contacts with the neighboring places were largely by land. Two bridges crossed the creek, joined us to people who would otherwise have been cut off.

Attend The Church of Your Choice Easter Sunday April 9th, 1944

The Church That Contributes So Much To The Better Life of Your Community Deserves Your Attendance and Support

Conduct of Fathers and Mothers in Church Attendance has a telling effect upon their children. It will be following the family custom, for children when grown up, to continue their regular church attendance if the parents have set the right and proper example.

Give your children a chance to be good citizens by setting before them the good example of regular church attendance
