BIBLE THOUGHT THIS WEEK

Nor trust in uncertain riches, but in the living God, who giveth us richly all things to enjoy. —1 Tim. vi. 17.

PARKING AUTOMOBILES

Quite an improvement has been made during the past year in the parking of automobiles in Carlisle. One of these improvements was the institution of the 30-minute parking zone on South Main street in the block opposite the court house. Another is the recent newly marked off horizontal parking lines on north side of Main street in the most congested block and other recent markings for "head-in" parking where street width will permit.

It has been a long-time custom for motorists to park their cars where space will permit at an angle of about 45 degrees. This type of parking when both sides of the narrow street is used obstructs traffic to the extent that two cars can not pass where angle parking is permitted on both sides of the street. Much of this type of parking is being eliminated and the system substituted of parking horizontal on narrow or congested streets and the "head-in" style of parking usually on one side of the street only.

There are more fenders scraped by thoughtless or careless drivers in parking maneuvers than in any other manner. When desiring to park it is always advisable to indicate your intentions to other drivers and when leaving a parking zone it is safe to be sure the traffic lane is clear.

LABOR'S TURN NOW

A few years ago when industrial empires were crumbling in the depression, the ears of management rang with the accusations of extremists who charged in effect that every corporation was out to insult the public. The sensible retort that the misdeeds of a few promoters did not warrant general condemnation of industry, fell on deaf ears. Punitive laws and tax measures were enacted that still handicap many businesses.

The stupidity of a generalized attack on any segment of American life is again emphasized in the recent complaint of a labor spokesman who cried: "We have seen American newspapers, as a class, build prejudice against labor unions, not by seeking out and dealing with the real sins in some of them, but by treating the one-quarter of one per cent of time lost through wildcat strikes as if these microscopic work stoppages represented general sabotage of the war effort."

Generalized attacks on labor are wrong—but then so are generalized attacks against industry, to say nothing of attacking the press as a prejudiced class. Labor is now getting doses of the same bitter medicine that it helped dish out.

FAVORS WAVES OVERSEAS

Secretary of the Navy, James Forrestal, recently emphasized the need of WAVES for overseas duty. Speaking before 10,000 WAVES in a rally on the Washington monument ground at Washington, D. C., Mr. Forrestal said that, "since the tempo of WAR is rising to a climax," there will be increased responsibility and demands on the work of WAVES. Congress has promised to give early consideration to the Navy's request for such work.

Any WAVES who serve overseas will be volunteers. This will enable those who wish to have duty on foreign stations the privilege of serving abroad. None will be assigned unless she volunteers and none will serve on the high seas.

The need for women in the Navy is steadily increasing because of the increased scope of operations. A number of patriotic women from this county are already serving in the WAVES. Undoubtedly there are yet a number who plan to go in from this territory. Such women should contact Mrs. Bertha Westfall for complete information and an appointment with a Navy recruiter who visits this county each week.

WRITES FROM CONNERSVILLE

Mrs John J. Smith writes from Connersville, Ind., while renewing her subscription to The Mercury. She stated that Mrs. Andrew Gray gave her the Mercury subscription as a birthday present and that she had gotten a lot of good out of reading it.

Mrs. Smith has been away from Carlisle about 30 years, she states, and only returned to visit her parents, Mr. and Mrs. H. R. Gray, and her brother, George Gray, and family. Other relatives are Mr. and Mrs. Andrew Gray, Carlisle; and Lurian Gray, Paris. Andrew Gray is now serving in the U. S. Navy.

It has become quite a fad to send The Mercury to a friend as a birthday present. Another such subscription came in this week.

AS YOU WERE

The trains are jammed, the buses too.
With all—and more — than they can carry.
That's why you're asked—and this means YOU!...
Is your trip really necessary?
Just give a thought, before you leave,
To G. I. Joe and don't forget him.
For Joe may find he can't get home
Unless you wait and let him.

Let me grow lovely, growing old—
So many fine things do;

You Can't Pay Off in "AVERAGES"

Yes, there are fewer auto accidents now—but that won't help if you have one. Only the insurance companies can play the averages—and they've drastically reduced the cost of the auto insurance that will pay for damages you do to other people and their property. You may have to face the one chance in a million, lose all the property you have, and mortgage your future because of just one minute of inattention at the wheel. Remember, older cars and older tires are far more dangerous. The only answer for you is complete auto insurance. Ask us about the new low rate.
