BIBLE THOUGHT
THIS WEEK

"If thou canst believe, all things are possible to him that believeth."—Mark IX:23.

So-nigh is grandeur to our dust,
So near is God to man,
When Duty whispers low, Thou must,
The youth replies, I can.

—R. W. Emerson

PARKING

One of the major problems confronting the city officials and business men of Carlisle is the parking situation. The concentration especially about time of arrival of the 4:30 bus in the afternoon, on Main street, double parking and long time parking of cars in the business center of Carlisle has created a problem that requires immediate and carefully planned consideration.

We have been advised that in the recent past a plan was adopted by the city council to restrict an area from the Deposit Bank to C. C. Cole & Co. on the south side of Main street to 15 minute parking time. This was maintained for a brief period and then abandoned and then again established to be dispensed with by the present city administration. Experience has shown that parking rules in Carlisle should not be as strenuous as in a large city, but certainly there is a need for some workable parking rules that will serve all alike and serve for the best interest of both town and rural motorists—a plan that would assure the farmer and his family that he could find a parking place near where business is to be transacted when in town.

A suggestion would be 15, 30 or 60 minute parking, time to be restricted over parched with the street on the south side of Main from Locust street to Broadway. This might be worked out through joint sessions of the Mayor and council with the public service committee of the Rotary Club.

HEADQUARTERS DEFEATS CARLISLE

The Carlisle Junior team played Headquarters Friday January 28 at the Headquarters gym. Carlisle was defeated in the last fifteen seconds by Simpson of Headquarters, who scored and saved the game for Headquarters 16-17.

FEDERAL TAXES AND THE WORKER

Labor's Interest in Proposed 25% Ceiling on Federal Income, Inheritance, Gift Taxes

By Robert B. Dresse:

(In Railroad Workers Journal)

A movement to amend the Federal Constitution so as to limit the power of Congress in peace time to impose taxes on incomes, inheritances and gifts to a maximum rate of 25 per cent has been under way since 1939. To date the legislatures of the following fourteen states have endorsed the proposal: Wyoming, Rhode Island, Mississippi, Iowa, Maine, Massachusetts, Michigan, Indiana, Arkansas, Delaware, Pennsylvania, Illinois, Wisconsin and Alabama.

The principal objectives sought to be accomplished by the amendment are (1) to increase the national wealth and over the years the federal revenue, (2) to save our free enterprise system, and (3) to free the states from federal domination.

In discussing this proposal it is necessary to bear in mind that since the defense program was started in the spring of 1940 our whole economy has been subject to the artificial stimulus of war. This stimulus removed, the foreseeable future will be one with certain determine the course of our economy and the degree of our prosperity. It is, therefore, the conditions that prevailed prior to the starting of the defense program that are important here. The issue presented by the proposed amendment is, of course, political one, nor will its beneficial effects be confined to capital. Alt-groups will benefit —labor, the farmer, and the investor. It is high time that we awaken to the fact that each group has a selfish interest in the welfare of the others, and that if any group is not prospering the others will not prosper. For example, if the flow of capital into industry be stopped and business stagnation reduced employment, and loss of market for both the factory and the farm will inevitably follow.

In normal times it requires on an average some $7,500.00 of capital for industry to provide a job for one person—capital needed to build and equip the plant and supply the working capital. The unemployed nation within the different industries; but this is the reserve of all. With an average annual addition to our labor force of about 800,000 in normal times, this means over $4 billion of new capital is needed each year merely to give jobs to the new applicants. Besides this there is, of course, a large amount needed to maintain and improve the existing plant and equipment.

American Worker World's Greatest Predmcer

The average American producer is more and earns more than the citizen of any other nation, because he is assisted by a large or investment in plant, equipment and working capital. For example a Chinese coolie porter with his unaided muscles takes a number of hours to move a ton of goods a mile and gets but a few cents for doing it. Aided by $25,

Basketball Scores

Clintonville 45—Carlisle 14

Clintonville, Bourbon county champs, displayed too much power for the Musketeers Tuesday night on the floor of the latter, walked away with the game by a score of 45 to 14.

The Musketeers looked better than in their first game with Clintonville but were no match for the big boys with their superior height. The Clintonville squad was by far the best looking team to play on this floor in several seasons. They were fast and played like champs.

Reed led the visitors with 15 points while none of our boys looked like stars. Every Musketeer tried hard but lack of fundamentals again proved to be their weakness. Their inability to pass cost many points.

Mayslick 25—Carlisle 22

Last Friday night the Musketeers lost a heartbreaker to Mayslick by the score of 25 to 22. It was a close and hard fought game throughout with Mayslick shot in out of with a win. They had a fast team that has made a very good showing this year and Carlisle showed what five boys can do when they try.

DO YOU KNOW WHAT NEW IMPROVED MOHAWK MEDICINE WILL DO?

The medicine is intended as an aid in giving joyful relief when constipated.

Grandma Was Right Time Has Proved It

Today, the first choice and family standby for relieving miseries of colds in millions of homes is the same homeremedy grandma used . . . Vicks VapoRub! What better recommendation could a product have!

When you rub time-tested VapoRub on the throat, chest and back at the first sign of a cold, you get results in a hurry — and keeps on working for hours to relieve coughing spasms and congestion in the cold-clogged upper breathing passages, to ease muscular soreness or tightness. It invites restful sleep. And often by morning most of the misery of the cold is gone! Try it.

FOR A' THAT AND A' THAT

Is there, for honest poverty,
That hings his head, and a' that!
The coward-slave, we pass him by,
We dare be poor for a' that!
For a' that, and a' that,
Our toils obscure, and a' that,
The rank is but the guinea's stamp;
The man's the gold for a' that.

What tho' on homely fare we dine,
Wear hoddin-grey, and a' that;
Gie fools their silks, and knaves their wine,
A man's a man for a' that.
For a' that and a' that,
Their tinsel show, and a' that;
The honest man, tho' e'er sae poor,
Is King o' men for a' that.

. . . .

Then let us pray that come it may,
As come it will for a' that;
That sense and worth, o'er a' the earth,
May bear the gree, and a' that.
For a' that, and a' that,
It's coming yet, for a' that,
That man to man, the world o'er,
Shall brothers be for a' that.
