## Hellcats Take Zeros—30 to Nothing

Official U. S. Navy Photograph

SOMEWHERE IN THE PACIFIC—In the recent smashing attack on Wake Island, one of the fast bombers which the powerful Hellcats, newest Navy fighting plane, helped to destroy, was hard-hit Jap Zero, the kind which was 30 to 1 shooting in favor of the U. S. planes.

The Zero spirit, the Japs' proudest boast in dog-fights, are making a final inspection of a Zero's horsepower P. & W. supercharged aircraft engine at the Kenosha, Wisc., plant of Nash-Kelvinator Corporation. Then the motor will be wrapped and hoisted and then be on its way to become the fighting heart of a Navy Hellcat, ready to take off from the deck somewhere in the Pacific. Each of these engines contains more than 2,000 parts, and is the product of 23 hours of precision machining, assembling and testing.

Production of 50 to sections of engines for Hellcats and Corsairs, other Navy fighting planes is and some good hunting for our fliers.

## BANTA

## COPPER SPEEDS CARGO SHIPBUILDING

CHICAGO—Welding cable embraining enough strands of copper wire to girdle the earth nearly 5,000 times is helping America's 1,000 shipyards with their 300 ships, 72 shipyards with their 2,000 ways attain phenomenal records in cargo ship production.

Approximately 300 merchant vessels per day are being produced by the 750,000 men and women shipyard workers, according to a survey by H. W. Prentis, Jr., vice-president of the Belden Manufacturing Company, a leading copper fabricator with plants in Chicago and Richmond, Ind. Virtually all welder production, including welding cable, is being channeled into war avenues.

At the current production rate, each shipway uses, for welding the plates, seams and sections of merchant vessels, some 120,000 feet of cable per year or 36,000,000 feet for the 300 shipways.

For purposes of flexibility and ease of handling, the cable is made approximately 2 of an inch in diameter. Each cable is stripped and tested for quality before it is put into service. Each cable is then wrapped in a final inspection of a 2,000 horsepower P. & W. supercharged aircraft engine at the Kenosha, Wisc., plant of Nash-Kelvinator Corporation. Then the motor will be wrapped and boxed and then be on its way to become the fighting heart of a Navy Hellcat, ready to take off from the deck somewhere in the Pacific. Each of these engines contains more than 2,000 parts, and is the product of 23 hours of precision machining, assembling and testing.

Production of engines for Hellcats and Corsairs, other Navy fighting planes is coming. and some good hunting for our fliers.

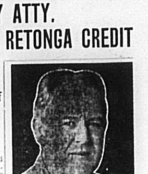
## FORMER COUNTY ATTY. GIVES RETONGA CREDIT

### He Hopes His Statement Will Help Others Regain The Joy of Living, States Prominent Lawyer. Tells Of Own Case.



MR. FERD P. VEECK

"Retonga made life so good again for me it would be impossible to express my gratitude," declares Mr. Fred P. Veeck, of Petersburg, Ind., prominent attorney, former publisher of the Petersburg Press, Republican Committeeman, and County Attorney. Probably no man in Pike county is more widely known or highly respected. Strongly praising Retonga, Mr. Veeck stated:

"Each summer I lost several weeks from my office from sheer weakness. I suffered tortures from indigestion after every meal and by dinner time I'd be so nauseated I felt almost completely exhausted. Along in the early part of August I had to spend lots of time in the restroom of the C & I. I had an old gentleman about seventy-five years old working in my office. He noticed my condition and physical condition while I was at my desk. He advised me to try Retonga which I did.

"I took three bottles of Retonga, and by the end of that time I was so remarkably relieved I felt better than in years. I haven't missed a day since because of the old troubles. I feel that thousands of people would find the same remarkable relief through Retonga, and I hope this statement will help at least some of those regain the joy of living."

Retonga is a purely herbal tonic for tonic conditions of 6th period quantities of Vitamin B-1 Accept no substitute. Retonga may be obtained at Carlisle Drug Store and Hopkins Drug Co. Adv.

## Three Minute Sermon

By Rev. James R. Thompson

Of all the things we have to be is a new creature old things are passed away, behold, all things are become new. II Cor. 5:17.

What this world needs today is new men, men whose hearts are right with God. There was an every age have been the towers of strength around which a confused world rallied. Even Pharaoh of Egypt prized Joseph above all his intellectual giants because he said, "Can we find such a man in whom the Spirit of the Lord is?" Today the cry goes up for someone to point the way and to lead on to the making of a new and better world. Such a world awaits the making of better men to walk in it and to so order things under God that there shall never be more war and waves of confusion that we see on every hand today.

Just how much progress are we making toward that better world? Since it cannot be had until men are made new in Christ, we can judge how far we are from that better world by the multitudes here and every where who do not know Christ. The natural man with the natural desires of the world ruling in his heart runs nothing for the things of God. Such men have old and evil hearts under dominion of the Devil—far from God. With such a new world can never be built, nor will there be peace in the kingdom of heaven.

I would think that the stress of the times would drive men to their knees as in the days of old for help, for even they will agree that only God can save us, and that Christ alone can bring us peace, but, lo and behold in our day of calamity men do not turn to God. We seem to hear the Lord say to us as He said to Jerusalem "What wrong have you found in Me that you have gone far from me?" and God still speaking says, "I brought you into a plentiful land to eat the fruit thereof . . . but when you entered in you defiled it . . . and forsaken Me." The shame of it all is how we treat the Lord Jesus. He does all these things for us, creating us, giving us life and health, and sending Christ to die on the cross for our sins, yet we live for self and the world break His Sabbaths, forsake His House and set our own ways.

Why do we not have a better world? Because we do not have better men. Men who live right. Men who know the Lord. Men who are made new in Christ Jesus. Men who are not ashamed of the gospel of Christ.

Today man is entitled to life, liberty and the pursuit of happiness at 35 m. p. h.
