BIBLE THOUGHT THIS WEEK

Obey my voice, and I will be your God, and ye shall be my people: and walk ye in all the ways I have commanded you, that it may be well unto you.
—Jer vii. 23

THIS TERRIBLE WAR

Political plans for peace after the wars from the White House at Washington and the Republican Convention at Chicago contain all the weak points of Versailles and the League of Nations. These fresh political platitudes will not be accepted by our own Congress, no matter which party wins.

Great military strength must be maintained by the powers that are crushing the Axis, and our leaders must be ready to wipe out any criminal nation before another future war can be started. Only by such means can this war become "a war to end wars."

Millions of Americans in military and civil life are already committed to policies that will keep Germany in "occupied territory" for another generation—by which time a better tribe may be raised.

Geneva was the headquarters of the World's greatest debating society. It must not be reconstructed and revived as an agency to maintain the peace. That beautiful dream is dead.

This terrible war will end with enough surplus war machinery and material that can be kept polished until time and progress does not need it any more.

BACK TOWARDS THE OLD ROAD

Congress passed original legislation for what it called overall reconversion, before it packed political bags for a vacation. The bill provided for speedy liquidation of contracts, essential financing and termination of inventories. The price control agreement by Congress extends the law 12 months, which is considered a long enough period to iron out all troubles and get private industry and "on its own," once again. Of course, there will be many difficult conditions and situations to iron out—but if the people of this country put out of the war half as fast as they were swept into it—then we'll be lucky!

GOVERNMENT CROP FORECAST

Washington—The U. S. Department of Agriculture today forecast that Kentucky farmers would produce a total of 231,906,000 pounds of tobacco in 1944, with an average yield of 856 pounds an acre for the state's 327,600 acres of tobacco now under cultivation.

Kentucky's estimated tobacco harvest was exceeded only by the North Carolina forecast, which anticipates a total of 567,100,000 pounds of the leaf to be harvested there.

Production of corn in Kentucky will total 74,892,000 bushels, it was estimated, with 2,877,000 acres planted and expected to average 26 bushels an acre.

Winter wheat will amount to 8,018,000 bushels at harvest, the by the Republicans, and we may department predicted, averaging 19 bushels to the acre.

Kentucky oats, planted on 75,000 acres, is expected to yield 19 bushels an acre, a total of 1,425,000 bushels.

MORE WOMEN VOTERS

Now that women voters outnumber the men, what effect will this fact have on the voting this fall? Here are the figures of the Census Bureau for those of voting age on January 1:

Men	44,043,669
Women	44,622,886

If the candidates slant their appeals to the majority the campaign ought to be different this fall. Perhaps that is why Rep. Clare Boothe Luce was spotlighted opportunity to address women voters.

There are an estimated 7,860,000 men over 21 in the armed forces but most of them will be too busy to vote, even if the opportunity is given them.

Friday is scrap paper day.

THE UNSEEN MORTGAGE ON EVERY AMERICAN HOME

The national wealth of America is the combined stock of the homes representing the national debt. A considerable portion of that national wealth is the homes in which we live.

There is an unseen mortgage on each and every home in the land and regardless of who owns them, the people living in those homes must pay those mortgages. Let there be a single man in any of us, there is charged up against our home $2,760 as the share of the national mortgage we must pay.

Across the street is a modest cottage occupied by a family of five. The share of those five people, father, mother and three children, is nearly $7,000, and at the rate we are going soon will be $10,000. Regardless of who owns that cottage that family must pay. The payment comes in the form of taxes, either direct or indirect or both.

In interest alone, that family of five must pay as much as $130 each year.

That is what the national debt means to us as individuals. It demonstrates our interest in economy in government. We must pay for the waste, whatever it may be.

LOCAL PERSONAL SOCIAL

MINOR MIRACLES

I saw a ruby-throated humming bird
Poised over blossoms pink beside my door,
Its wings vibrating with small thundrous roar,
So fast I saw them not, but only heard.
One bloom and then another, then a third
Received the tiny beak still seeking more
Of sweetness from the never ending store,
As by those wings the air was faintly stirred.
This lovely and so nearly perfect thing
Deserves more than a nature-lovers nod
As on its inconceivable swift wing
It hangs suspended there 'tween sky and sod.
Its breathless beauty knows no need to sing—
This precious minor miracle of God
