

BEFORE THIS WAR IS OVER, there may be only two kinds of people in America... 1. those who can still get to work in automobiles. 2. those who are forced to walk.

IF you want to be in the fortunate group who will not be riding to work in automobiles, join Gulf's "Anti-Breakdown" Club today. How do you do it? Just come in for Gulf's Protective Maintenance Plan!

This plan was conceived by experts in car care. Gulf developed it because car maintenance is a most important civilian job. The Government says civilian car maintenance is one of the services essential to winning the war, because 8 out of 10 new workers are accustomed to get to work!

Here's Gulf's Protective Maintenance Plan...

- 1. It protects your car at 39 DANGER POINTS!**
- 2. It gives you a CLEANER, smoother running motor!**
- 3. It checks your suspension!**
- 4. Get an appointment at your Gulf Station!**

GULF

...for better car care today... to avoid breakdowns tomorrow!

DEATH for the Axis in war!

WEALTH for the South in peace!

PHOSPHORUS—that vital spark that sets off Traces Industries and other explosives to blast the Axis—originates exclusively in the phosphate rock fields of Tennessee—on the I. & N.

Phosphorus, now essential in war, after Victory, as fertilizer and other valuable chemical compounds, will revitalize agriculture and enrich countries that lack it.

It produces that contribute to Southern industry and the nation's welfare.

For 94 years the I. & N. has masterfully aided in the South's economic development—not just the phosphate industry alone, but in many other of her abundant resources.

Under equality of laws and regulations, the I. & N. will be found always in the vanguard of those helping to make our great Southland a region of easy and prosperity.

District from Indigestion, Pains In Shoulders, And Sluggish Elimination Promptly Relieved, Declares Well Known Resident. Tells About Her Case.

"My weight is now back to normal, and I feel like a different person," declares Mrs. A. A. Henry, well known resident of Route 2, Sandy, Tenn. Mrs. Henry enjoys the love of her neighbors for her smile around. Telling about her case, she happily states:

"Every time I ate seemed to form gas in my stomach until sometimes I felt like I would simply die. I rarely ever retired at night without having to get up until I got relief from this terrible gas pressure. I suffered badly from constipation, and then I began having sharp darting pains in my arms and shoulders. Sometimes they were so severe I thought I should just have to resign. My constipation was awful. I lost several pounds."

TIDBITS of Kentucky Folklore

By Dr. Gordon Wilson
Western Ky. State Teachers College

THE FOLK APPEAL

Last night I went up to the gymnasium to help entertain the preflight cadets who are in camp at Western. My part was to put on the Virginia Reel. With three old-time fiddlers in the midst of the floor, the reels rattled from the center like spokes in a wheel. More than a hundred people were dancing in the five or six sets that divided from the center. Adams I was reminded, as I felt so often before, of the appeal of folk dances. Here in the sets we had soldiers from every part of America, east of the Mississippi, who have grown up in dances of places that offer superiority from Bowling Green. But all of them entered happily into the dance. The whole scene was so short time the intricate steps and turns. The whole scene was so short time the intricate steps and turns. The whole scene was so short time the intricate steps and turns.

FROM General Bradley, leading the Invasion ground forces, right through every rank, American men now face a brutal, desperate, able enemy. For this invasion has only begun—before our fighters lies a hard and bloody task, one that demands all their courage, backed by all your faith in their ultimate victory.

That faith will be tested many times in this invasion—in grim struggles, setbacks, possibly even temporary defeats. It will be up to you to remember that early victories usually only mean more savage opposition from a foe made more bitter, more ruthless as the shadow of his doom grows larger—up to you to keep that faith in days and nights of gloom as well as in hours of triumph.

There is little that you can do to show that you realize what they must face, perhaps for many months. But one thing you can do—back the attack with every dollar you can spare! Let the Bonds you buy in this greatest of Drives be the measure of your belief in their ultimate victory!

W. F. F. SAYS OILOLET TO REMAIN

Washington—(AP) — The kitchen table will have to continue to be in shabby attire, but the War Production Board indicates that the silicon manufacturers had more than enough of it. They are now producing it in quantities of about 100,000 tons a month, according to the War Production Board.

According to reports of the Commerce Department, the price for the nation as a whole averaged 10¢ per bushel above 1939 during the first four months of this year, and 15¢ per bushel above the 1943 price.
