U. S. ASKS FARMERS TO PLANT 16,000,000 ACRES MORE THAN LAST YEAR

Standard Oil Helps in Program to Keep Farm Machinery "Fit and Fighting."

"Food Fights for Freedom," and every American farmer has been asked to do his share in planting and cultivating the 16,000,000 acres that are needed over last year's record total.

With farm labor short, every piece of farm machinery must be kept in the fields working, if this goal is to be reached.

"Our organization," says E. A. VanBever, local agent of the Standard Oil Company, "felt that we could best serve this program by helping the farmer keep his trucks, tractors and farm machinery in fighting trim, and free from rust and dirt. Our drivers have been trained to assist you, in caring for your farm machinery, and preserving its life. In addition, each tractor operator can secure from our driver a free Wartime Maintenance Manual that will help you keep your farm machinery 'Fit and Fighting.' I hope our farmer friends will take advantage of this service, and call on the Standard Oil man for any service he can render in keeping their trucks, tractors and machinery on the job."

Do you want a job like this?

WANT a job where every hour you work is an hour that helps win the war?

Want a job that gives you a chance to increase your skill, or learn a new one? A job that gives you new experiences, new friends?

Then join the Women's Army Corps and take over a vital job in the Army.

For full details about the WAC, apply at any U. S. Army Recruiting Station. Or write: The Adjutant General, 1115 Munitions Bldg., Washington 25, D. C. Women in essential war industries may obtain release from their employers or the U. S. Employment Service.

MERCHANT'S WIFE PRAISES RETONGA

"I Am On the Go All Day And Never Get That Exhausted Feeling I Used To Have," States Mrs. Wyatt.

"If you are not feeling up to par, the answer is, 'try Retonga,'" happily declares Mrs. W. L. Wyatt, wife of the popular Madisonville, Ky., feed store proprietor who lives on Route 2. Telling of her own case, Mrs Wyatt gratefully continues:

"In spite of everything I tried, I seemed to go down steadily for the past two years. Sluggish elimination may have been the cause of all my troubles, for I had to use laxatives constantly and I felt full of toxic poisons. Soon my nerves began to get upset and I got to where I couldn't get a real night's sleep. My appetite left me and when I made myself eat I had a very uncomfortable feeling of fullness. I felt tired out all the time.

"Retonga gave me wonderful relief. I don't have to take strong laxatives. I sleep restfully, and my nerves have settled back to normal. I relish every meal. I feel so much stronger and better that I am on the go all day. Retonga deserves all the praise I can give it."

— Retonga is intended to relieve distress due to Vitamin B-1 deficiency, constipation, insufficient flow of digestive juices in the stomach and loss of appetite. Accept no substitute. Retonga may be obtained at Carlisle Drug Co., and Hopkins Drug Store. —Adv.

Give the boys first chance at Long Distance

It means a lot for a boy in the service to talk to his folks and family back home. Usually the best time to do that is on the evening

How about giving him a break by not using Long Distance in the evening except in emergencies?

How You Can Help Get MORE INDUSTRY FOR KENTUCKY

YOU live in Kentucky. You love your state. You wish it had better schools and roads and hospitals . . . more prosperity . . . so the state could get ahead . . . and so the young folks would have better opportunities here at home.

You know more industries would help Kentucky, for industries create work, payrolls and taxes . . . better living for everyone. You wonder what can be done to bring more industries. You are told that a large quantity of cheap electricity from the government-owned TVA, made available in Kentucky, would do the job.

But that is not true. Low-cost power for industry is already available in almost unlimited volume here. The business managed electric companies already serve most of the biggest industries, including about 200 coal mines. In the last 31 years no factory has stayed out of Kentucky for lack of cheap power.

The truth is that electricity is about the cheapest item used by industry. The U. S. Census Bureau reports that only 82 cents worth of electric power is required in the manufacture of the average product worth $100. That is less than one per cent. So if electricity were free, it would make little difference in the average manufacturing cost.

Favorable tax laws and a friendly, sound, thrifty state government attract industry. Industry likes an atmosphere that makes it feel at home. It likes to feel safe from unfair attacks . . . safe from destructive agitation again . . . paying business.

You are a citizen, a taxpayer, a voter. Through your representatives in the Legislature you can help to create an atmosphere that will favor a steady industrial growth in Kentucky, with almost unlimited advantages for the state.

All that any legitimate business asks is fair treatment. But no business can successfully meet unfair competition from government subsidized, tax-free enterprises — whether it be manufacturing, or banking, or farming, or supplying electricity . . . or selling groceries, clothing and hardware.
