DEMOCRATS TO WIN IN STATE—COUNTRY

(Continued From Page 1)

Even if President Roosevelt should not be a candidate to succeed himself, the Democrats can sweep the nation in November, Hannegan declared in an interview.

To the party officials and workers, the tall Missourian stressed the importance of unity, harmony and strong precinct and war organizations.

Tom R. Underwood, Lexington, state chairman, joined the harmony in Kentucky Democrats' ranks would be reflected in its county district and state conventions.

Women will have a voice equal to that of the men in the Kentucky delegation to the Democratic National Convention in Chicago July 21, the meeting decided. In issuing county, district and state committee calls, the State Central Committee directed district conventions to select one man delegate and alternate and one woman delegate and alternate to the national convention.

The resolution, offered by Clifford E. Smith, Frankfort, committeewoman from Fayette county and the district conventions also halted the practice of proxy voting at such conventions, one from each district, as far as possible between men and women.

Kentucky will have 24 delegates to the national convention, two each from each of the nine congressional districts named by district conventions, and six from the state at large, named by the state committee. The two delegates from each will be named for each district, but the six delegates-at-large must will be chosen from the state at large.

The state convention also will select two Presidential Electors from the state at large, making a total of 11 for Kentucky, and will name one man and one woman for membership on the National Committee, to fill posts held by the former Governor Johnson. Richmond, and Mrs. T. C. Carroll, Shepherdsville.

For the Democratic member of the State Board of Election Commissioners, the state committee voted to support Governor Wilson's five nominations, from which he will select one. The names to be submitted are Ed Purcell, Williamsburg; Ben Williamson, Jr., Ashland; Ernest Wolf Brady, Danville; T. C. Bradley, Lexington, and Perry B. Haines, Carrollton.

A dinner at Lexington Monday night at which snokers included Hannegan, United States Senator Albert W. Barkley, Representative Emmett O'Neal, Louisville Mayor Wilson W. Wyatt and others.

G. O. P. FUND-RISING COMMITTEE ORGANIZED

The American people are quite familiar with the way the Republican Party can raise campaign funds, particularly during a Presidential election year, Hannegan said in no surprise to read in the New York Post that Wendell Willkie, who is a former ad of ex-President Herbert Hoover, is to be treasurer of the most of the important Republican Party fund-raising committee in New York State, with headquarters located in the heart of New York City on Madison Avenue.

According to Robert G. Spivack, in a recent issue of the New York Post, Mr. Hoge will head the reorganized United Republican Finance Committee recently formed to interlocken election campaign.

While the Committee itself is not avowedly a Willkie committee, any particular GOP candidate, said Spivack, "its leaders are not unfriendly to Governor Dewey. Hoover is two-fisted in political circles one of the master minds of the campaign to make Dewey GOP nominee, it is said.

At the same time it was learned, according to Robert Spivack, that Winthrop A. Aldrich, chairman of the governing board of the Chase National Bank, largest private financial institution in the world, will act as treasurer of the finance committee. Aldrich, said Spivack, is a brother-inlaw of John D. Rockefeller, Jr.

Selection of Hope and Aldrich is considered part of an intensive drive to obtain money from Wall Street interests in behalf of the Republican candidate, whoever he might be. Both men are well-known and highly-regarded in financial circles, Spivack said.

Hope is a senior partner in the law firm of Milbank, Tweed and Hope in New York City. Hoover appointed him Undersecretary of the Treasury in 1929 to serve under the late Andrew Mellon.

Always active in Republican financial undertakings, Aldrich was chosen by Hoover as a member of the United Republican Finance Committee in 1938. During Hoover's campaign against Al Smith. Hope was campaign vice-treasurer of the Republican National Committee.

Aldrich, it was understood, is being counted upon carry the burden of the fund drive, said Spivack. It was believed, he said, that he (Aldrich) regards Dewey's candidacy favorably.

Few people object to hand-picked apples, peaches or if they are among those picked.

BUS STRIKE IN LEXINGTON

Lexington's transportation facilities were tied up Tuesday, leaving thousands of shoppers and business-district workers stranded, when about 130 city-bus drivers, including drivers and shop employees, walked out in protest against the discharge of an employee Tuesday morning.

The railway system issued a statement declaring the strike to be "completely without justification." The strike came as a result of the company discharging a bus driver for irregularity in handling of fares.

No seller seems to think any ceiling is high enough.

JAP PEACE TERMS

A Berlin radio broadcast Monday outlined peace terms proposed by Japan including the transfer of the entire United States Navy and all large American merchant ships to Japan according to the Japanese periodical Meiho, as the price for peace in the Pacific.

The motives of the publication in submitting the terms just now were not made known.

The terms were drawn up by what the broadcast called a Japanese experts in various fields and provided that the United States be kept under strict surveillance for 10 years after the war.

These are some of the other conditions, as quoted:

"The entire naval air force to be put at the disposal of the Japanese.

"All naval air bases and air industries to be destroyed, except those needed by Japan.

"Army and navy production to be permitted on a reduced scale only.

"All expenses of taking over American ships by Japan to be paid by the United States.

"All naval installations, naval stations, dockyards, arsenals, colleges and other centers of naval education to be destroyed.

"In the case of scuttling of a single ship, 10 times its value to be paid to the Japanese government."

Some of the economic terms as drawn up by "financial expert" Yasei Nishiya:

"Private banks to be eliminated; monopolies, trusts, cartels and capitalist methods in agriculture to be liquidated.

"Stock exchange to be abrogated. "All trade unions to be abolished."

Kentuckians in the officer and enlisted personnel of Navy, Marine Corps and Coast Guard, exclusive of the Navy Nurse Corps, totaled 47,906 on January 31.

KNOCKOUT BLOW TO CHINA SOUGHT BY ADVANCING JAPS

Advancing Japanese columns, seeking a quick knockout blow, have stormed town, east and west of Tungting Lake in their new drive to clear the Hankow-Canton railroad, and both American and Japanese air forces were thrown into action in support of the tens of thousands of ground troops now engaged.

A Chinese communique admitted that on the east side of the lake the Japanese, advancing southward toward the railroad, had reached the suburbs of Tungcheng, 45 miles east-southeast of Yochow, and that west of the lake they were in the suburbs of Nanhsien, 45 miles west of Yochow.

A third column was storming Kaiyuan, 40 miles northwest of Nanhsien.

The communique revealed that strong Japanese forces were massed on the north shore of the Yangtze river alone as the invaders stretch from Kiangling to Kienli to join the drive.

The Chinese high command communique noted that the Japanese were steadily receiving reinforcements.

FIFTH WAR LOAN DRIVE BEGINS MONDAY, JUNE 12; BIG ADVERTISING CAMPAIGN STARTED THIS WEEK

Quota of $170,000 To Be Raised In Nicholas County By July 8th

Monday, June 12, marks the opening day of the Fifth War Loan Drive throughout the nation and preparations are being perfected to enable the smallest precinct in every county to do its share in the drive successful in the shortest time possible.

Important messages will be carried through the columns of The Mercury during the next six weeks to keep the public alert to the great need for each county to make and go over the top in subscribing and promptly. See page seven this issue for the first of these appeals sponsored by 44 patriotic business firms and individuals.

Regarding the organization for Carlisle and Nicholas county, one of the co-chairmen, Mr. T. B. Ross has been and still is very ill and will be unable to give the other chairmen, Roger Womack, any help. Mr. Womack have the full and hearty co-operation of the public for any assistance they may be called upon to give their tasks, which are hazardous and very, very dangerous, their ailment and undivided attention in this persistent effort to raise their share in the drive. Nicholas county can place full emphasis on the cause that supports them.

The local organization has not been completed as yet and Chairman Womack needs the assistance of all who will help in perfecting its efficient organization. He will appreciate your voluntary offer to help.

WAR COUNCIL NEEDED

A suggestion is made that one of the greatest needs at this time is an over-all War Council for Carlisle and Nicholas county. This council, when properly organized and placed in operation would eliminate much of the uncertainty in the accomplishment of all drives and other activities incident to the present war.

Members of the Rotary Club of Carlisle have been discussing this suggested organization at the weekly meeting this Tourdays and it is enthusiastically endorsed. The idea should have the full support of the Rotary club and all other local organizations.

The formation of a well organized War Council would relieve other local organizational work on necessary in all fundraising drives and campaigns for other purposes.

OBSERVATIONS

WE SEE AND HEAR

By Monty

VOICE TONES

It is interesting to observe the difference in the voice tones as the same words are spoken in conflicting forms. Even if the words are spoken to a dog. The smallest child is fully conscious of the difference when the same words are used in harsh tones or kindly tones. Something those people do in changing the voice tone when ordering an applicator for a position which requires the use of the telephone in an office. The voice tone is valuable—guard it carefully.

NEW POTATOES

The subject of this column can remember when his mother would say, her garden was "on time" if she could serve Irish potatoes and new peas on the Sunday nearest May 20—Decoration day or Memorial Day. I had new potatoes out of my garden last Sunday, May 28, but the peas were not quite ready. It would be interesting to know how many Mercury readers enjoyed a mess of potatoes or new peas on either—both—from their gardens last Sunday.

FILTHY LUCRE

I recall, when a young lad, one of the first impressions I had of "Filthy Lucre." A neighbor was displaying a very badly soiled one dollar bill and my father referred to it as "Filthy Lucre." My impression was that it was filthy because of the soiled condition, but I learned later in life that "Filthy Lucre" had a different meaning than was my impression. Still, I had difficulty understanding why gold coins were classified as "Pure" gold and paper money as "Filthy Lucre."

OUTBURSTS OF ANGER

Grown-ups are prone at times to give vent to their anger displeasure with outbursts of vituperations which leave no doubt in the minds of the audible of their feelings of contempt or displeasure of a circumstance or incident.
