BIBLE THOUGHT THIS WEEK

Be of good courage, and He shall strengthen your hart, all ye that hope in the Lord.—Ps. xxxi 24.

LET'S GIVE THANKS

Today, November 23, is America's Thanksgiving Day. Much has happened since last Thanksgiving day and many of us then believed sincerely that the war in Europe would have ended before or by this Thanksgiving, but it has not, and here we are to commemorate another wartime Thanksgiving day.

What have we this year to be thankful for? It is true many homes have been saddened by fatal news since last year; in other homes parents, wives and other relatives are disturbed to a serious degree concerning the boys who are wounded ,prisoners of war, missing, or now in the front ranks at the battle-front. We can't be thankful that we are engaged in a war, but we are thankful that the war is nearer the end than a year ago; also we may well be thankful for the freedom we have in America and for the principles for which our boys fight. We would probably not be as safe from bombs as we are today were it not for the gallantry and bravery of our youth. They are giving everything for the safety and security of America and American principles.

Therefore, let us be thankful that this war is not fought on American soil, but to the contrary, our fighting forces have carried the battles to the home-land of our enemies and the finish will be fought on their own soils where it started.

There are also many personal matters for which we are always thankful — good health, friends, comforts of life in a war-ridden world, and a thousand and one items for which we owe gratitude to the providence of God for his goodness to America.

Let's be thankful today. The Mercury office will be closed all day today—Thursday, November 23—Thanksgiving Day.

WANTON DESTRUCTION

It seems to be becoming more prevalent that some have the mistaken idea that the occasion of Halloween gives licenses to stalk forth while peaceful citizens are unaware and proceed to destroy public or private property without the slightest threught of violation of the law or common decency.

Immediately following the last Halloween under the cration of observations, mention was made of this practice, but with only slight credence due to the fact that but little damage had been done in this section. Since then some persons have come to the conclusion and destructive practice originated in Carlisle. Such is not the case.

The editor of this newspaper does not desire to voice his opinion in regard to the destruction on Halloween or to condemn individuals convicted but he does condemn the practice and does express sympathy for those who suffer property damage.

ing property of individuals who have expended their own money to establish, and such vandals are none less than partners with Hitler in his stampede of destruction, and each, if and when found to be guilty, should be dealt with to the fullest extent of the law regardless of whom they may be.

We are confident we express the sentiment of the best and most decent citizens of this community when we speak as above. Certainly there is no excuse for those who are cowardly enough to use the guise of Halloween to destroy his neighbors, or even his enemy's property. Such is not Americanism and certainly is not condoned by the good citizens of Carlisle and Nicholas county.

INVEST every dollar that you can spare in WAR BONDS Now!

THE Sixth War Loan is under way. We citizens of the United States are asked by our Government to buy $14,500,000,000 worth of War Bonds, between November 20 and December 16.

This huge sum is urgently needed to supply our armed forces with guns, planes, ships tanks and everything else they must have to fight their way to victory and bring peace to a shattered world.

Let's put every dollar we can possibly spare into these War Bonds. Let's show our fighting men—who are offering their lives and enduring untold hardships in the battle zones—that we are supporting them without limit.

Let's serve notice on the Nazis and Japs that we're more determined than ever to crush their efforts to enslave the world and destroy our kind of civilization.

We can best do this by oversubscribing the Sixth War Loan by a tremendous margin . . . a landslide of our dollars!

By putting all our spare cash into War Bonds we save money at a profit . . . because the Government will repay us $4 for every $3 we lend Uncle Sam . . . and it's the world's safest investment.

By investing our dollars in War Bonds (instead of extravagantly buying things we don't really need) we help to prevent skyrocketing prices on food, clothing, fuel and other necessities . . . which is dangerous inflation.

By purchasing War Bonds to the very limit we will help end the war sooner. We will more quickly get our loved ones in service back home. We will speed the restoration of the normal American Way of Life . . . with better appreciation of our country and our freedoms and with greater opportunities for achievement and happiness among our people than ever before in the history of this beloved land.

Give War Bonds for Christmas

OLD GAME DOG IN NOVEMBER

By Nancy Byrd Turner

His blood that ran slow in spring and with autumn's turning
Is quickened under his hide, now.
Tout and tense
He sniffs, in the bitter-blue smoke of acorns burning,
Far-off an-flabic scents.

And hears the underbrush crack where a rabbit wheels,
And strains to be gone with briars tearing his coat
And burrs in his ears and heaven's long wind at his back,
And a hell in his throat.

The down is a splinter of lemon-green eyelid, rimed
Between his muzzle. He rubs the icy black air
With the cool, the inscrutable cools, may remember in time—
He makes his inordinate prayer—

And he, it is answered: a light in a window, curt speaking,
The stun of cold metal, quick pain on the chairs and then,
Holy, authentic, leather and certain, the beaten-silver hand.
The gods have remembered again
