Retonga Did More Than All The Other Things I Tried Combined," Declares Knoxville Resident. Tells About His Case

MR. J. A. MOORE

Happy and grateful men and women continue to come forward with praise for Retonga and the prompt relief this noted herbal stomachic and Vitamin B1 medication brought them. For instance, Mr. J. A. Moore, well known resident of 709 West Hill Street, Knoxville, Tenn., declares:

"Retonga did more than all the other medicine I ever used. For fifteen years I had to take a laxative practically every day that day, and even then I often had dizzy, swimming headaches that would nearly get me down. Morning I woke up feeling fagged and would often miss my meals because food had no appeal whatever. For a couple of months I could not eat and it was all I could do to be up.

"I feel like a different person now."

"If European methods are permitted to take possession of the proceeds of our lives we can expect only a European result."

"This elegant little book is most readable, for every man and woman. Democrat or Republican, it is eligible to receive and vote this year."

"I am not a politician, but I feel that the politicians can be fair and honest with the people. I have learned to their cost, many federal deuces and 'directives' are not subject to review by the courts. And if they were — what right?"

"The American citizen should not that citizens seeking judicial relief from political-administrative deuces would find federal deuces packed with Presidential-appointed party hacks. One of us was the custom to appoint outstanding lawyers, regardless of party, to both judiciary posts."

Telephone Lines to the Front

Keeping step with the fast advancing war fronts all over the world the telephone lines of communication. These lines are vital to military and naval operations and the war fronts expand, vast amounts of additional wires, cables, switchboards and telephones are urgently needed.

Even when an invasion force was, it loses vast stores of additional communication equipment. That is one price of victory. This is why there are shortages of all kinds of telephone equipment over here and why so many people are waiting for telephone service.

The best possible use is being made of the equipment we have, but there will necessarily continue to be waiting lists for service until the war is won and manufacturing plants have time to convert from war production and catch up with the backlog of demands for equipment.

We'd like those who must wait for a telephone to know that we shall continue to do everything possible to shorten that time.
