BIBLE THOUGHT

THIS WEEK

"And these ears shall hear"

"And these eyes shall see"

"And these feet shall walk"

EDITORIALS

WHILE A SENK OF OUTRAGE

with our strength, directed

to the making of a great

was decided to allow the

on the battlefield, every

to be killed almost fifty per

more available. In other

feel ourselves. While a

good story and there was

paper being allowed to

existing, such an action

drawn out and

finally through.

THE EDITOR CHANGED

hands some weeks ago and

it appears that initiation has

of editorial in this

stance. Now the Mercury

of the happy more valuable

lost from the world which

is and a faith part—and

the Mercury.

AND SO TO DINKY, BARK

and dirty rooms is to

our home for a to

to the contrary notwithstanding

but it will be our

will live it. Who are

we do.

ANNOUNCEMENT THAT

this proposed damming of

river is essentially to be a

kind of government, even to

be a flood control measure

and, finally, if the measure

carried through to completion,

it will represent another step

the way toward public ownership

of utilities. And this, in

the opinion of the Mercury, is

another step in the wrong

direction.

THE GOVERNMENT, WHEN

it departs from the purposes of

government under our

constitution, ceases to be

the government we believe

we are entitled to under our

constitution. If we make

ourself clear, in other words,

government should only govern

us, and the definition

of government is related to

the purposes of the

government. It is related to

the purposes of the

government. It is related to

the purposes of the

government. It is related to

the purposes of the

government. It is related to

the purposes of the

government. It is related to

in fact, where does the

hatched later in the

to active pressure, come

to the picture? Will

the government project

for hydro-electric power

look a few years from

now, according to statisticians,

the rate alone is the

means of all preparation?

GLANCES

HERE AND THERE

By I. D. ZERN

And, as far as the editorial

is concerned, a lot of

thought would have to be

given the matter before we

would be able to take an

action. The Ohio river system,

and what would be only

pointed out in years to come

an appropriate depth under

the broad rippling of a new

frank water with the heavy

of the Ohio river system,

that would do efficient con-

ditions and be powered gener-

ally power.

LIKE THE LOST ATLANTIS

slipped off the face of the

map and is being sought for

in the "city" of Pleas-

ant Valley. The city of Pleas-

ant Valley is a member of the

widely-read correspondent Tom

my.

HOLBROOK & COMPANY

Carlisle, Kentucky

25 Years Ago

The issue of Thursday, Decem-

ber 13, 1920, of the Mercury

contains a very interesting

article on the life of

Thomas Jefferson. The

article is written by

one of our best writers

and is a most interesting

read. It is a most

interesting article and

is a most interesting

read. It is a most

interesting article and

is a most interesting

read. It is a most

interesting article and
