

DEATHS

William Caldwell, 51, died last Wednesday night at his home near Shady Nook after three weeks illness. He was a son of the late James and Rebecca Young Caldwell and was a native of Anderson county. Survivors include his wife, Mrs. Lillie Mae Young Caldwell, and the following children: Mrs. Walter and Frank Caldwell, Nicholas county, Mrs. James McGill, Mrs. W. B. Young, Mrs. B. M. Morris, Mrs. Louise Bartlett, Mrs. Russell Jones and Clarence Caldwell, all of Indiana. Mr. Caldwell was a member of the Methodist church. Funeral services were held at 10 a. m. Thursday at the residence, with the Rev. Ira McKimlin officiating. Burial was in the cemetery at Providence in Mercer county.

PETERSON

Hanson Peterson, prominent Cynthiana attorney, Masonic leader and native of Nicholas county died suddenly of a heart attack last Thursday. He has practiced law in Cynthiana for about 25 years. Mr. Peterson was past general Free and Accepted Mason, and

EVERY holiday has its significance, but none can compare with Christmas. It is the one time of the year when self-seeking gives way to selflessness, and all are united in one common attitude of good will towards our fellowmen.

Our entire personnel joins in wishing Christmas joy to those whom we have served, and to others as well. Accept our sincere thanks for the privilege of being of help in making this Christmas of 1945 truly merry.

THE WAY THEY LOOK to the tax collector

This car is from an aerial photograph. It shows the relative size of all one of the heavy trucks regularly operated on Kentucky highways by the treatment in 1942 of the 10,000-pound gross weight law, that is, when trucks with a gross weight of 7,500 pounds were permitted. The heaviest type of truck might require only 4 inches higher and 7 1/2 inches wider than the one shown in this picture.

Kentucky's Highways Were Not Built for Heavy Trucks

It is reported that the commercial trucking interests will seek to have the legislature permanently authorize the operation of trucks with a gross weight of more than 20,000 pounds.

There are only 2,100 miles of high type surface roads in Kentucky. Even the main highways across the state contain long stretches of narrow, winding roads of low type construction. In the State Highway System of 10,000 miles there are 3,200 miles less than 16 feet wide, many substantial bridges and 16,000 places where the view ahead is restricted within 500 feet by sharp curves or other obstructions. In the County Road System of 45,000 miles there are 27,000 miles of narrow, winding roads. The plans for Kentucky's highways were not built for 40,000-pound trucks.

The Subsidy

In a normal year automobiles and trucks of 13 1/2 tons or less capacity pay more than 200% of all gasoline.

THE DANGER AND COST OF THE HEAVY TRUCKS ARE PLAIN ENOUGH. IT IS HARD TO SEE WHAT BENEFIT ANYBODY EXCEPT THEIR OPERATORS WOULD RECEIVE.

This message is published by the Kentucky Railroad Association. Protection of the safety and convenience of the operators of automobiles and of trucks of responsible size, preservation of the highways, the need for taxpayer and for those who are dependent upon the highway and county roads, all under such simple, fair and reasonable limitations be imposed upon the instrumentalities that use public property for private profit.

All commercial trucks normally pay less than 45% of all road taxes. This is actually less than the portion of railroad property taxes that is paid for county roads, bridges and city streets. Why build for county roads, bridges and city streets, when the public's use of heavy commercial trucks which endanger the public's use of public property?

No benefit to the Public: Only the operators of the super-size trucks would be benefited by the proposed law. The 20-ton trucks were permitted during the war but they did not reduce their charges to the public. Increasing truck weights in other states has not reduced commercial truck rates. The commercial trucking interests even propose to reduce the rates they charge the public if their law should be adopted.

Shall We Build Superhighways or Farm-to-Market Roads? The more of the road taxes that is used for building the superhighways needed only by the super-size trucks, the less will be the funds available for building the farm-to-market roads so badly needed by the farmers and school children in the rural sections of the state.

Will Income Tax: All commercial trucks normally pay less than 45% of all road taxes. This is actually less than the portion of railroad property taxes that is paid for county roads, bridges and city streets. Why build for county roads, bridges and city streets, when the public's use of heavy commercial trucks which endanger the public's use of public property?

BRINGING BEST WISHES FOR A MERRY CHRISTMAS. Illustration of a reindeer and a person in a winter coat.

Merry Christmas one and all. Santa Claus never get down the chimney with our load of good wishes for a Merry Christmas to the people of this community, because he just couldn't squeeze through. You've been mighty good to us and we appreciate it beyond words. We want you this Christmas season than its attainment? For your fair operation and loyalty to us in 1945 you have our lasting gratitude.

Holiday Greetings 1945

Our Christmas greetings these past few years we have given expression to a sincere yearning for peace.

Our victorious armed forces have brought to us a full realization of these fondest hopes, for which one and all are deeply grateful.

So in sending you this year our cheery, friendly yuletide greetings, may be not accompany them with ardent wishes for your health and happiness and for those near and dear to you.

We also wish you prosperity throughout the year 1946 and that the gladness of the season may fill your heart with joy.
