BILLS TO BE INTRODUCED
The following bills have been introduced in the Kentucky House of Representatives.

EDITORIALS
Kentucky as a Commonwealth
with a rich natural fortune, and Nicholas county, as a country peculiarly endowed with a fair share of Kentucky's natural wealth, look forward to an era of better days after the war, if coming opportunities are carefully watched and advantage is taken of them as they occur.

With the end of the great conflict still flaming over the Orient, will come a period of post-war expansion and prosperity such as the world has never before witnessed. The economist are to be believed.

The securing of a proper portion of post-war affluence for Kentucky, with its long traditions of loyal citizens of the state, will depend largely on the aggressive action of the people of Kentucky, acting in concert under the right types of leadership.

Such a leadership as can be expected to form the nucleus of a national movement for betterment here is to be found in the membership of the Carlisle Rotary club—a representative citizenship at a meeting of which the Carlisle Rotary club was broadened last Tuesday night.

Certainly food for thought is the fact that Kentucky, while peculiarly gifted with natural wealth, has not been able to keep within its borders more than any other state in the Union, with an abundance of investment money ready at hand for the enterprising and now freed from the oppression of unfair treaties which are being juggled in the face of its opportunities.

Not as the banner of conquest but as the rally-

Now is the time for the citizenship of Carlisle and Nicholas county to keep

Now is the time for the citizenship of Carlisle and Nicholas county to keep their heads well today as betterment of conditions here as are needed; and in the fury of hard work Carlisle a part of the trend and to provide an even better home for the boys and girls after they return from the war.

Such leadership locally is now provided by a planning board composed of representatives of various civic and patriotic organizations. Powerful factors in any Rotary club, the American Legion, the Red Cross, the Farm Bureau, the churches, are felt best to adhere to a policy of publishing news of this type material.

GLANCES HERE AND THERE
By I. D. Zern

Although more than 2,000 copies of the Mercury were issued last week the edition was completely covered by the board. It is estimated as far as this newspaper is concerned that more than 8,000 people read this newspaper every day.

The Mercury, aside from its circulation in Carlisle and Nicholas county, enjoys a healthy spillover into adjacent counties. It reaches the eyes of substantially the entire trading public which might be expected to be attracted to Carlisle.

It supplies a wide range of information for local merchants. Its advertising pages are read with attention by the public who expect to call to their readers. At this time the Mercury has a not inconsequential payroll distributed among employees, all of whom live in this county.

The Mercury, a Nicholas county publication, will strive to make any improvement possible which is found necessary to promote community service. The Lexington political office will change Nicholas-Bourbon race state representative. If he happens to overlook the history of our state, predict that before it is over, the Pritchard-Alford will make the next world war to come.

Among recent letters received have been those of C. Frank Dunn and Charles Fennell, both of which were in the United States. Frank has been in many years to be one of the county's greatest citizens. He is survived by two sons, Miss Elizabeth Miller, Mrs. Elizabeth Miller, Mrs. Miller, Mrs. Charles J. Miller, Memphis, Tenn.

Letters To The Editor

Dear Sir: I have read with interest the editorial in the Mercury of June 14th, regarding the Pritchard-Alford race. I believe that the county is being misled by the propaganda of the Pritchard-Alford race. I believe that the county is being misled by the propaganda of the Pritchard-Alford race.
