Robert Spencer, A. B. Tilton, Harvey Kennedy, Frank Kennedy, Ed Kennedy, C. S. McDonald, Clifton Fisher, Chris Frey, Claude Campbell, H. C. Leonard, Ed Stahl, Tobacco Dealers Association of America, Joseph Calamia.

Calamia said he based his estimate on surveys among manufacturers and wholesale distributors. Cutbacks in Army orders and slightly improved manufacturing conditions, he added, will make the additional cigarettes available.

The tobacco dealers official said that another 60 days would see a more substantial improvement in the civilian supply but that the increase would be gradual.

### War Bonds Can Save Lives Of Soldiers

Thousands of American homes will always miss a soldier son or husband who died for America. The purchase of more and bigger war bonds in the mighty Seventh War Loan campaign will help to prevent needless grief in later homes.

Nicholas county's E-bond sales are lagging. The total number of E-bonds purchased thus far in the Seventh War Loan campaign —the longest bond drive of the entire war—is far short of the quota, it was learned today.

Nicholas county never has failed to meet a bond quota. Let's get busy on our E-bond quota now.

### More Cigarettes For Civilians

Civilians will get more cigarettes within the next ten days and may look forward to an increase of at least 10 per cent, it has been said by the president of the Retail Tobacco Dealers Association of America, Joseph Calamia.

### WAR CASUALTIES PASS MILLION MARK

Army and Navy combat casualties during the war reached 1,012,040 last week, an increase of 8,162 in the previous week.

The Army total of 996,834 represented names reported through May 30 and reflected actual fighting through the early part of May—presumably up to about the time the war against Germany ended.

The Navy casualties amounted to 116,215, a rise of 3,347 in the last week indicating the more intense fighting in the Pacific.

The break-down on Army casualties as reported to Secretary of War Stimson, and corresponding figures for last week:

Killed 185,670 and 183,563; wounded 556,844 and 553,068; missing 46,747 and 52,746; prisoners 106,573 and 100,482. Most of the increase in the prisoner total apparently represented shifts from the missing column. Of the wounded, Stimson said, 317,622 have returned to duty.

Similar figures for the Navy: Killed 44,503 and 43,344; wounded 56,767 and 54,308; missing 10,705 and 10,709; prisoners 3,240 and 4,245.
