QUICK RELIEF FROM STOMACH ULCERS

RELEASE OF SERVICEMEN
The following was inserted in a recent issue of the Congressional Record by Senator Walter F. George of Georgia.

Mr. President, from time to time letters reach me from men in the armed forces, which are most disconcerting. I never get any of these letters in the House, because I realize the difficulties the Army and Navy are encountering in getting men back from the fighting fronts. I do not intend to read a few lines from a letter written by a man who has a wife and children and who has been in the Pacific for more than two years, or to check the letter for any of its contents. I have not the time to do this. I have not the time to check the letter for any of its contents. I have not the time to check the letter for any of its contents.

Farmer's Newest back-Saver

The anti-vibration tractor now a reality. It rises any height up to four feet, virtually drawing itself up by its own bootstraps. The lifting operation is accomplished by electrically actuated frames beneath the axle, consisting the rear to the two arms of a Ford Ferguson tractor, especially designed for handling the tractor. The entire operation takes less than one minute.
