'DAM FACTS'

HERE IS WHAT THE PROPOSED FALMOUTH DAM, IF CONSTRUCTED, AND ITS ASSOCIATED RESERVOIRS AT CAVE RUN, BOSTON STATION AND POOL'S CREEK WOULD DO TO AREAS IN THE AFFECTED COUNTIES AT FLOOD STAGE:

- 1. Inundate 90,000 acres of fertile bottom land (63,000 acres in the Falmouth Reservoir, alone), which, with attendant hill lands, actually reduces over 300,000 acres from production. (And this at a time when the world is crying for food!)

- 2. Submerge or render uninhabitable approximately 3,000 homes. (And this at a time when our returning Veterans are begging for homes for themselves and their families!)

- 3. Give an annual total net gain from both power production and flood control of only \$805,000, or a return of only 1 1/2% on a \$52,000 investment. (It is conservatively estimated that the annual crop and other farm produce loss will amount to approximately \$4,000,000.)

- 4. Wholly or partially inundate these, and perhaps many more, of our thriving communities: Blue Lick Springs, Clayville, Farmers, McKinneyburg, Salt Lick, Shawboro, Oakley, Pleasant Valley, Myers, Planners Landing, Wyoming, Kentonworts. (The commerce arising from these communities is of immeasurable value to the economic welfare of the affected counties and of the affected counties and of the Commonwealth of Kentucky.)

- 5. Provide flood control benefits for a stretch of only 37 miles along the Licking river; would reduce a flood stage, equal to that of 1937, a mere 2 feet at Cincinnati, 3 inches at Louisville and none below Louisville. (To give such scant protection to these areas from occasional and temporary floods, the plan would permanently flood a reach extending up the Licking through our counties of 170 miles.)

- 6. Create numerous "landlocked" areas; cripple transportation by cutting across County, State and Federal highways and roads in many sections. (Do you have a airplane or an auto?)

- 7. Increase taxes because all units of government would be faced with increased expenses and reduced revenues. (When the other fellow's land is taken from the '68 rocks, YOUR taxes are bound to go up!)

IF YOU WANT TO EFFECTIVELY FIGHT THIS SO-CALLED "IMPROVEMENT" PROJECT WE INVITE YOU TO POOL YOUR EFFORTS WITH OUR ORGANIZATION AND SIGN ONE OF THE MANY PETITIONS OF PROTEST THAT WE ARE NOW CIRCULATING IN THE COUNTY, FOR ADDITIONAL INFORMATION SEE YOUR COUNTY CHAIRMAN.
