HARRY KING LOWMAN

DEMOCRATIC CANDIDATE FOR

CONGRESS

Eighth (8th) District "You Vote For Me . . . I'll Represent You!" Primary, Aug. 3, 1946

Open Letter to the Ex-Serviceman

Dear Comrade:

Your friends and neighbors sent you to fight the Japs with the promise that nothing would be too good for you when—and if—you returned. The people of your community, for the most part, trusted that, but the ungrateful gentlemen who make the laws are too busy dealing "favors" to our defeated enemies to take cognizance of the needs of the returning veteran, and apparently is unaware that charity begins at home.

As a former member of the armed forces having served over three years in the Army and about half of that in North Africa and Italy, I think that I have some small knowledge of the needs of the discharged serviceman. It is on this knowledge and on my record on behalf of the veteran in the 1942 and 1946 sessions of the Kentucky State Legislature that I am soliciting your support of my candidacy for Congress.

In 1942 I worked for and helped to pass legislation designed to insure job and seniority rights for those inducted into the armed forces. Later that same year, I volunteered for the Army and was not discharged until January, this year.

Last fall, while I was still in the Army, the people of Boyd County voted overwhelmingly to return me to the state legislature. During this past session, it was my pleasure to introduce and bring about passage of the following:

Veteran housing legislation; bill to enable the state to construct armories to facilitate peacetime training; bill to establish a revolving fund for temporary payment of obligations incurred by veterans taking vocational training under the GI Bill (later vetoed by the governor).

The state was not financially able to give the veteran the many things to which he was entitled and so richly deserved. However, the national government is, and I believe will, if the veteran's cause is correctly presented by a qualified man who knows the veteran's needs.

There is definite need for immediate legislation to rectify errors in the GI Bill; to provide for prompt payment of furlough pay to discharged GI's; to fix the rate of adjusted service pay (bonus) and arrange for its prompt payment.

If a veteran is not going to school, or taking on the job training, the GI Bill is of little value to him. The true welfare, which should be of great aid, has so far proved to be a headache to those who have tried—some succeeding—in forging through the maze of red tape connected therewith.

It is all well and good for us to loan billions to foreign governments interest free for a period of five years, and then at 2% per annum thereafter. However, from the time a veteran puts his signature to a contract under the GI Bill of Rights, he pays 4% per annum, or twice the amount paid by foreign interest. Again I repeat: The suggestion reclining in Washington have evidently forgotten that charity begins at home.

Furlough pay for enlisted personnel is now before Congress for passage. In its present form it calls for payment in bonds, which is infinitely better than no pay at all, but if it is not passed at this session, and I am elected, I will advocate immediate furlough pay in cash.

There is every argument for an adjusted service pay. A man who, due to no reason or another, was not in the armed forces, was able to make much more than the boy drafted to fight for $21.00, and later $50.00 a month. It is only fair and just that the Congress determine the average wage for personnel engaged in industrial occupations and adjust the pay of the serviceman to bring it on a par with their earnings. This would entail taking into account length of service. In addition a man should be given an added amount for time spent overseas. The men who fought the war can never be paid, but they can, to a degree, be compensated.

If you agree with the program that I have outlined, then work for my nomination and election to Congress. If I am elected, I will ever strive to better the lot of my comrades in arms, regardless of the war in which they served.

Yours in service,
HARRY KING LOWMAN
