The Bible is to be produced in colored motion picture, 16 mm. size, with a sound track, under arrangements just completed by the American Bible Society working in conjunction with Charles Anson Books, Inc., of New York City. The first three are the Nativity, the Woman of Samaria and the Parable of the Sower. This will be followed by the pictures of the Gospels and the Epistles. The pictures will be filled in some 100 separate pictures. There will be one picture each two weeks, and they will be released principally to churches of the world, but "others" will be released to the general public. The pictures will be produced by the American Bible Society, 1015 S. 1st St., New York City. The pictures will be produced by the American Bible Society, 1015 S. 1st St., New York City.

More than 2,000 tons of flour, milled food, dried milk, Christmas packages, shoes and clothing are being shipped to needy areas in the United States. The flour is being shipped to the United States from the United States. The flour is being shipped to the United States from the United States.

are diminished in numbers, and that there has been a great loss of the number of pastors and Christian leaders. Let us not be discouraged or pessimistic; but let us have faith in our God and in the Christian religion. The church is still here, and it is still here, and it is still here.

With the taxpayers working on their fiscal year better work in the past of superintendents and teachers will be demanded. And demanding better school for their money means they will get them. This will be a result of the general awakening in Kentucky. In the past public interest in elementary education has been even lower than the general interest of our schools, if there is a difference.

THE HOUSE MUST BE LAW

The Senate disappointed mood of the people of the United States by its failure to enact the bill for the relief of the unemployed. The bill was passed by the House, but the Senate failed to act on it.
