

ANNOUNCING THE NEW

Seabee

Something New in Personal Planes

...A 4-place amphibian plane Built By the Makers of the famed REPUBLIC P-47

LANDS ON EITHER LAND OR WATER

An AMPHIBIAN Plane in the lower price field... gives you a wider range of operation because you can land on either land or water.

ALL METAL CONSTRUCTION

The ALL-METAL CONSTRUCTION insures a longer life to the plane—offers a plane that will withstand the rigors of weather outside a hangar.

The new 4-place SEABEE is a pusher type plane with the motor and propeller mounted at the rear and above the cabin compartment.

The plane lands or takes off easily from either field or stream, and because of its versatility the SEABEE amphibian is the first purpose plane for pleasure...

This great plane is priced at only \$3995!

Your New Seabee Will Be on Display In Paris Sooner Than You Expect
